

JCMS Basic 1.9.1.2 Release Notes

Maintenance

- Inactive codes no longer appear on the list of dropdown options.

Search Option

- Added the ability to search by Cause Number.
- Added the ability to search by Service Report Number.
- When searching for a restricted juvenile by number (PID, SID, Referral Number, etc.), the system will display the Restricted Access notice prior to opening the juvenile's folder.
- When using the Search feature, the system will remember the users' "Archived Record" preference. If the last time the user searched for a juvenile they included or excluded Archived Records as search criteria, the next time the user returns to the Search screen, the Archived Records box will be checked and vice versa.

Juvenile ID

- Added three fields to Sexual Offender Registration Status:
 - Registration Expiration Date
 - DNA Sample Obtained (yes or no)
 - Date Sample Obtained Date
- Added Driver's License Type as an additional field in the ID Numbers section.
- Added the ability to sort Attachments by category and by date range.
- Added the ability to delete a photo.
- Add a flag for ICJ (Interstate Compact Juveniles)

Complainants

- Added two new Injury Types: Deceased and Unknown.
- Created a new category under the Associates Screen of Complainant/Victim.
- On the Associates Screen, the offense is displayed for Complainant/Victim Associates.
- Created the ability to specify a Pseudonym for a Victim or Associate.

Defense Attorney

- Added fields to Defense Attorney section:
 - Email Address
 - Start Date (required)
 - End Date
- Reordered Defense Attorneys to display current DA on top, followed by the Defense Attorney with the most recent End Date.
- Added email address on the Attorney History Screen.
- Only Defense Attorneys who are 'active' for the juvenile at the time of court will be displayed on the dropdown for the Defense Attorney Assignment field on the Court Hearing Screen.
- The Defense Attorney field on the Referral Disposition Screen has been changed to track the name of the attorney. (Court Appointed, Public Defender and Retained by Family are no longer options).

JCMS Basic 1.9.1.2 Release Notes

Detention

- Modify system generated Detention Chronological Note to include Detention Date and Time.
- Prohibits multiple open detention entries.
- Added a Medication and Appointment Notification box on the Release section of the Detention Screen.
- Removed Unit/Room from the Detention Roster.

Fees

- Added a Pass Through link to the fees container allowing a user to View Pass Through Disbursements to Victims.
- Added the requirement for Payment Number when creating a Credit Card Payment.

Programs

- Added validation rules to Program Components to conditionally require Component, Begin Date, End Date and Outcome. For example an Outcome and/or End Date cannot be added without a Component and Begin Date.

New Reports

- The Statistical Report has been added.
- The Detention Summary Report has been added.
- The Activity Summary Report has been added.
- The Placement Roster has been added.
- Access to run these reports has been given to the roles of System Administrator and Research Analyst.

Ad Hoc Report

- Under Security, added a Role of Ad Hoc Report Generator. This role allows the user to create, edit, delete and run Ad Hoc Reports.
- The list of Ad Hoc reports can now be sorted by Report Name, Updated Date and Updated By.
- Total Juveniles and Total Unique Juveniles have been added to the Ad Hoc results.

Comprehensive Folder Edit

- Added the warning, **Case Plan Past Due**. A case plan must meet two criteria to generate this warning:
 - The supervision associated to the Case Plan must be active (no end date).
 - The Next Review Date recorded on the Case Plan Screen must be prior to the current date.
- If multiple PA referrals are pending for Violation offenses, do not include these referrals in the Warning, **More than One Paper Complaint Pending**.

JCMS Basic 1.9.1.2 Release Notes

Pending Actions List

- The logic for displaying Case Plan information has been modified to the following:
 - Supervision associated to the Case Plan is open.
 - The Case Plan is the most recent for the related Supervision.
 - The Case Plan is not an Exit Case Plan.
- The Pending Actions List can be filtered by Unit. Access to filter the Pending Actions list by Unit has been given to the following Roles: System Administrator, Probation Officer Supervisor, and Intake Supervisor.

Case History Report

- Added Alert Information as a print option.
- Add Chronological Notes as a print option.
 - Can be sorted by date
 - Can select specific Type
- Added Address History as a print option.
- Separated Substance Abuse History and Drug Test History into different options.

Current Fee Status Report

- Allows the user to exclude archived folders from the report.
- Includes juveniles without an active officer assignment.
- New sort order by Division, Unit and Probation officer, then alphabetical by juvenile last, first, middle name, unless no assignment, then alphabetical by juvenile last, first, middle name only.

Security

- The Prosecutor role (Perry) has been modified to include access to the Detention Container and to view the Detention Record Information.
- The Prosecutor role (Perry) has been modified to include access to edit a complainant.
- The Chief Prosecutor role (Penny) has been modified to include access to the Detention Container and to view the Detention Record Information.
- The Prosecutor Admin Clerk role (Pam) has been modified to include access to the Detention Container and to view the Detention Record Information.
- The Residential Placement Probation Supervisor role (Ron) has been modified to include access to run the Placement Roster.
- The Residential Placement Probation Officer (Ross) has been modified to include access to run the Placement Roster.
- Added the role of Ad Hoc Report Generator (Abba). This role allows the user to create, edit, delete and run Ad Hoc Reports.
