(a) **Standard.**

The University of Texas Medical Branch – Correctional Managed Care (UTMB) medical director or designee determines the type of medical equipment for each facility depending on the level of health care provided. The health services administrator manages equipment, supplies, and materials for health services delivery.

(b) **Procedures.**

- (1) The **UTMB medical director** or **designee** develops a standardized infirmary equipment list for each facility.
 - (2) The **health services administrator** ensures that equipment is checked and tested according to the manufacturer's specifications.
 - (3) **Texas Juvenile Justice Department (TJJD) and UTMB staff** ensure youth do not have unsupervised access to equipment.
 - (4) The **health services administrator** maintains equipment inventories according to UTMB procedures and state property accounting system rules and regulations.
 - (5) UTMB maintains an inventory of all capital assets.
