## **TJJD Staff Member at the Giddings State School Tests Positive for COVID-19**

June 17, 2020

AUSTIN—Executive Director Camille Cain announced today that a Youth Development Coach at the Giddings State School has tested positive for COVID-19. The results of the test were received yesterday afternoon.

The agency is identifying any youth or staff members who might have had contact with the employee. Those youth will be administered a COVID-19 test, and staff members will be asked to self-isolate following CDC guidelines.

This case marks the third staff member at Giddings to test positive for COVID-19 since April 2.

At this time, no youth in a TJJD facility have tested positive for COVID-19.

To learn more about the agency's response to COVID-19, please visit the [TJJD website](#).
