IMPORTANT TRAINER INFORMATION

1. For consistency, this lesson plan was developed for a final review of mandatory topics outlined in TAC. This review is *not mandatory*; it is merely a tool that may be used to review for the certification exam.

Slide 1 – Activity | Jeopardy

Instructor's Corner:

PG: N/A

Trainer Notes:

Instructions

1. Trainer will need to advance slides at the computer; the laser remote will not advance slides in the correct order during this activity.
2. You will need a scorekeeper for the game, chosen at the trainer's discretion.
3. There are five categories with five questions each, worth \$200, \$400, \$600, and \$800, \$1000.
 - When a participant picks a category, you should hover the mouse over the chosen amount and click to advance the slide.
 - When you are ready for the answer, hover the mouse on the statement and click to advance to the answer slide.
 - When you are ready for the next question, hover the mouse over the home button, which will take you back to the categories slide.
4. Trainer should pick a participant to answer the first question, under "Legal Liabilities" for \$200 to begin the game; or trainer may begin the game as they would like.
5. Participant will provide the answer to the statement, in the form of a question. For example, if the statement reads, "Texas law outlining the juvenile justice system is found in the Texas Human Resources Code and this code," the participant should answer, "What is the Texas Family Code?"

6. Trainer should advance to the next slide for the answer and if correct, the participant receives the “amount” on the slide. Scorekeeper must keep track of each participant’s amounts.
7. The participant who answered the first statement correctly will pick the next participant and they will pick a category, an amount, and must answer the statement. This is suggested only; the trainer may decide how participants will pick the categories, etc.
8. Continue with this sequence until all of the statements have been answered. On the category board, once an amount is chosen, it will disappear from the board, indicating it has already been answered. If there is not enough time, trainer may decide when to stop the game.
9. Once the round is complete, to access the next round, simply enter the slide number and enter.
 - **Round two**-type **54**, press enter, and round two slide will appear
 - **Round three**-type **106**, press enter, and round three slide will appear
10. Each round will have a Daily Double. Participant will receive double the money value on the slide if they have the correct response.
 - After daily double graphic appears, click for the answer to appear on the slide.
 - **Round one** – Slide **38**, Role of the JPO, \$600. Award \$1200 to participant if response is correct.
 - **Round two** – Slide **74**, Trauma-Informed Care, \$1000. Award \$2000 to participant if response is correct.
 - **Round three** – Slide **134**, Code of Ethics, \$800. Award \$1600 to participant if response is correct.
11. For all animations, you must be in “slide show” mode.

12. Once the values disappear, they will only reappear when you exit out of the PPT and reopen the slide show.
13. Intro slide will play the jeopardy theme music for 30 seconds. During this time, participants should put their materials away and get ready to play the game.
14. Debrief activity.

Activity Point: This activity is designed to review information from the JPO basic courses.

We are going to play three rounds of Jeopardy. All of the categories and statements are related to the information we have covered this week. I will pick a person to answer the first statement. You must answer each statement with a question. For example, if the statement reads, "This course discusses the importance of the law related to juveniles on supervision; you will answer "What is Foundations of Juvenile Law | Texas Family Code and related laws?" Once you have answered a statement, you will pick the person who will go next. This review will prepare you for the final JPO certification exam you will take later. The questions in the activity are not the questions which will be on the final exam. Lastly, you may use your participant guides if you need help with responses.

Debrief

(All participants should have one opportunity to answer a statement, if able and are able to use their participant guides for this activity.)
