Executive Summary

The following report was prepared by the Texas Department of Family and Protective Services, the Texas Juvenile Justice Department, the Texas Education Agency, and the Texas Military Department (formerly the Adjutant General’s Department) in accordance with the 2018-2019 General Appropriations Act. Section 17.05 of Article IX directed the named state agencies to coordinate the delivery of juvenile delinquency prevention and dropout prevention and intervention services and to report to the Legislative Budget Board detailed monitoring, tracking, utilization, outcome, and effectiveness information on all juvenile delinquency prevention and dropout prevention and intervention services for the preceding five fiscal year period.

To carry out this work, an interagency workgroup was formed with representation from the four named state agencies. The group meets to learn about one another’s programming; to identify key considerations in the coordination, planning and delivery of services; and to identify opportunities to enhance the coordination, planning and delivery of prevention and intervention services. Each of the named agencies summarizes its dropout and delinquency prevention efforts, providing a snapshot of services, eligibility criteria, and outcomes from each program for which data is tracked. The complete matrix is found in Appendix A. Additionally, each agency submits brief overviews of its dropout and delinquency prevention efforts, including monitoring information, outcomes, and available data.

This report includes the legislatively required information, along with a description of coordination activities accomplished by the workgroup to date. The report also includes an examination of the continuing impact of truancy reform enacted by the 84th Texas Legislature on the delivery of dropout and delinquency prevention and intervention services; the prevalence of serious mental health concerns in youth served by dropout and delinquency prevention and intervention programs; and opportunities to further improve the coordination of services.
SECTION 1:

Legislative Charge

2018-2019 General Appropriations Act, Article IX, Sec.17.05

AGENCY COORDINATION FOR YOUTH PREVENTION & INTERVENTION SERVICES

From funds appropriated above for the purpose of juvenile delinquency prevention and dropout prevention and intervention services, the Texas Department of Family and Protective Services, the Texas Juvenile Justice Department, the Texas Education Agency, and the Texas Military Department shall coordinate the delivery of juvenile delinquency prevention and dropout prevention and intervention services. Juvenile delinquency prevention and dropout prevention and intervention services are programs or services that are aimed at preventing academic failure, failure on state assessments, dropout, juvenile delinquency, truancy, runaways, and children living in family conflict. Each of the agencies listed above shall coordinate services with the others to prevent redundancy and to ensure optimal service delivery to youth at risk of engaging in delinquency and/or dropping out of school. Programs shall demonstrate effectiveness through established outcomes.

Not later than October 1 of each fiscal year, the agencies shall provide to the Legislative Budget Board, detailed monitoring, tracking, utilization, outcome, and effectiveness information on all juvenile delinquency prevention and dropout prevention and intervention services for the preceding five fiscal year period. The reports shall include information on the impact of all juvenile delinquency and dropout prevention and intervention initiatives and programs delivered or monitored by the agencies.
SECTION 2:

Interagency Workgroup: A Shared Understanding

While Texas has seen recent decreases among youth in rates of both school dropout and juvenile justice referrals, the individual and social costs associated with their continued occurrence compel state agencies serving youth to do more to help them succeed in education and preventing further contacts with the justice system. Specifically, there were 56,551 formal referrals to juvenile probation departments throughout the state in fiscal year 2016, a 9% decrease from the previous year’s 62,535 formal referrals.

As the state continues to look for ways to more effectively and efficiently coordinate services that support the positive development of youth and decrease dropout and delinquency rates, there is a shared understanding among the workgroup members of the agencies named in Rider 17.05 of the need for:

1. **Preventing or mitigating the impact of adverse childhood experiences (ACEs), including trauma, which impact the way children and youth think, learn, and behave.** According to research, the developing brain is highly sensitive to the presence of stress hormones. When present in high levels or over long periods of time, stress hormones can physically alter structures in a child’s brain that control decision making, regulation of emotions, and the processing of information. Programs that prevent or mitigate the impact of ACEs will reduce the broad burden ACEs place on education, justice, and health and human service systems.

2. **Implementing interventions targeting both risk factors and protective factors linked to reducing dropout and delinquency.** It is not enough to stop something “bad” from happening. Prevention and early intervention goals should include fostering resiliency and competency in children and youth to overcome inevitable challenges and be equipped for success at home, in school, and into adulthood.

3. **Aligning and coordinating with other programs that target common risk and protective factors.** A strong interconnectedness exists among dropout and delinquency and other social problems, such as truancy, substance abuse, abuse and neglect, suicide, teen pregnancy, and domestic violence. Prevention efforts that focus exclusively on one domain and fail to acknowledge the strong interconnectedness among risk factors stunt state goals to reduce negative outcomes and increase positive outcomes.

4. **Recognizing the roles of families, schools and communities in increasing protective factors and decreasing risk factors among children and youth.** Many risk and protective factors for dropout, delinquency, and other social concerns of children and youth are attributes of their families, schools and communities. Families, schools and communities can serve not only as milieus for interventions; they can also be the targets of intervention effort.

5. **Viewing prevention and intervention efforts as a continuum, not one time endeavors.** Resiliency develops over time, building upon protective factors, such as relationships established in early childhood, and evolving as a child grows into school age and adolescence. Just as youth may require “booster” shots to extend the protection of childhood vaccinations, youth will benefit from regular doses of prevention and intervention efforts that are tailored to their evolving developmental needs.

SECTION 3:

An Overview of Juvenile Delinquency and Dropout Prevention and Intervention Services in Texas

TEXAS DEPARTMENT OF FAMILY AND PROTECTIVE SERVICES (DFPS)

The Prevention and Early Intervention (PEI) Division within DFPS contracts with community-based agencies and organizations to provide services designed to prevent the abuse, neglect, delinquency, and truancy of Texas children. Services are voluntary and are provided at no cost to participants, however all services are not available statewide.

Monitoring, Tracking, and Effectiveness

Contracts are formally monitored through a statewide monitoring plan based on a risk assessment instrument. This is done annually and includes the areas of fiscal, administrative, and program. Contracts are also regularly reviewed through submission of contractor quarterly reports and review of data and reports from the PEI database. If a deficiency or an issue is identified regarding contract performance, contract managers and/or program specialists work with contractors in implementing Corrective Action Plans. Performance outcomes, outputs and efficiencies by fiscal year are listed below.

COMMUNITY YOUTH DEVELOPMENT

The Community Youth Development (CYD) program contracts with community-based organizations to provide juvenile delinquency prevention services in 15 areas of the state with a high incidence of juvenile crime. Communities prioritize and develop prevention services according to local needs. Approaches include youth - leadership development, life-skills classes, character education, conflict resolution, tutoring, mentoring, career preparation, and recreation. The 83rd Legislature increased funding for CYD to include additional zip codes starting in FY2017.

Client Eligibility: Youth ages 6-17, with a focus on youth ages 10-17, who live in or attend school in one of the designated zip codes.

STATEWIDE YOUTH SERVICES NETWORK (SYSN)

This program provides evidence-based prevention services through established statewide networks of community-based organizations that work to prevent juvenile delinquency and create positive outcomes for youth by increasing protective factors.

Client Eligibility: At-risk youth between the ages of 6-17 years of age, with an emphasis on youth ages 10-17.

TEXAS JUVENILE JUSTICE DEPARTMENT (TJJD)

PREVENTION AND EARLY INTERVENTION PROGRAMS

The Prevention and Early Intervention Programs of the Texas Juvenile Justice Department (TJJD) are authorized in Section 203.0065 of the Texas Human Resources Code and were first initiated in early 2012 when the Texas Juvenile Justice Board established a community-based prevention and early intervention funding strategy from existing resources.

Section 203.0065 of the Texas Human Resources Code defines prevention and intervention services as “programs and services intended to prevent or intervene in at-risk behaviors that lead to delinquency, truancy, dropping out of school, or referral to the juvenile justice system.” The statute defines populations to be served through these services are at-risk youth, ages 6 through 17 years old and their families.

Probation departments partner with a variety of providers to offer a range of services to youth ages 6 to 17 years who are at increased risk of later involvement with the juvenile justice system. Some departments partner with local community youth service organizations to provide educational assistance, mentoring, character development, and skills building (e.g., problem-solving, anger management, conflict resolution skills, etc.) after school or during summers. Other departments focus on providing parents of at-risk youth with the skills, services, and supports they need to better manage their children’s challenging behaviors.

Through a competitive request for proposals process in early 2012, TJJD initially awarded $1.4 million in grant funds to 24 probation departments to implement prevention and early intervention programs for youth who were not under departmental supervision, but who were identified to be at increased risk of delinquency, truancy, dropping out of school, or referral to the juvenile justice system. Since then TJJD has increased funding and added a number of grants over the years (see previous prevention and early intervention reports for more detailed information).

In FY 2016, the total amount of prevention funding was $3,137,684. A portion of these funds, $480,358 was provided to counties in a call for proposals for one-time Prevention, Programming, and Placement grants. Nine counties who had not previously received prevention funding and six counties who had received previous funding received these one-time awards for FY 2016. There were 27 ongoing grants provided to 25 counties in FY 2016. During the spring of 2016, a call for proposals for contracted services was distributed and approved. A single entity provided services to 165 youth in eleven locations in Texas. In total, 32 counties and one contracted entity received 41 grant awards during FY 2016. Appendix A describes the programs and funding amounts in the counties that received TJJD grant funds in FY 2016.

Monitoring, Tracking, and Effectiveness

Contracts for the prevention and early intervention services are regularly reviewed through the submission of annual fiscal and programmatic reports, monthly data provision, and quarterly data reports. If a deficiency or issue is identified regarding performance, TJJD staff works with grant recipients to remedy the situation immediately. Data is analyzed to assess rates of successful completion of programming and the prevention programs’ impact on participants’ likelihood to be formally referred to the juvenile justice system. Additionally, agreements with the Texas Education facilitate data matches for participants with parental consent to assess the prevention programs’ impact on discipline referrals and school absences.
Available performance outcomes, outputs and efficiencies for FY 2012-2016 are listed below.

</tbody>
</table>

Data indicate over 3,000 children and adolescents began TJJD-funded prevention and early intervention services during FY 2016. For the 3,328 children and adolescents who ended their participation in a prevention program in FY 2016, the average age of children receiving services was 11.6 years. Of the youth served, 57% were male; and 43% were female. Approximately 84% of the children served were members of minority groups. The average length of service varied with the type of program being provided, ranging from a one-time single intensive day parent/child event to year-round community-based out-of-school programs, with an average of 177 days in programming. The average length of stay for two of the programs provided in two of the counties was 504 days (El Paso County) and 581 days (Bexar County).

Over 90% of the youth who completed prevention and early intervention services in FY 2016 did so successfully. Students whose program ended successfully had a longer average length of stay than those students ending unsuccessfully by 65 days (183 versus 118, respectively). About 9.4% of the youth who started the program in FY 2016 failed to comply with the terms of the program. Specific information from each county can be found in Appendix A which describes specific county level evidence of effectiveness data.

TJJD received data from the Texas Education Agency on students with a consent form signed by a parent or guardian. An analysis of this data compared student absence rates and disciplinary referrals during the twelve-weeks prior to entering the prevention program and the twelve-weeks after program completion. For students completing a prevention program in FY 2015 and included in this analysis, a majority (53.5%) experienced a decrease in absence rates after program exit, while 7.8% maintained their absence rate after program exit. In sum, 61.3% of students included in the analysis were able to maintain or have fewer absences after program participation. Additionally, among students completing a prevention program in FY 2015 and included in this analysis, a majority (53.7%) continued to have the same number of disciplinary referrals after program exit, while 26.4% experienced a decrease in the number of disciplinary referrals after program exit. In sum, 80.1% of students included in the analysis were able to maintain or have fewer disciplinary referrals after program participation.
The Texas Education Agency provides state and federal grants to school districts, charter schools, non-profit organizations and other eligible entities to provide voluntary dropout prevention services for grade K-12 students who are identified as at-risk of dropping out of school. TEA’s dropout prevention and at-risk programs are designed and administered in accordance with statutory requirements and best-practice research for dropout prevention programs.

In the spring of 2017 TEA also implemented a major agency restructuring initiative to better support special populations and to align all staff work supporting at-risk students with the agency’s strategic priorities. Efforts to date have been significant to build agency capacity and position staff teams strategically for this important work. A new department was created, the Department of Special Populations, which exists to streamline and improve TEA support programs that serve students in special education, students who are at-risk, students who are highly mobile, students with limited English proficiency, and students who are gifted and talented as well as twice-exceptional.

Within the new Special Populations Department is a new Highly Mobile and At-Risk Student Programs Division. This division collaborates internally with programs across the Office of Academics and the entire agency where at-risk and highly mobile students are impacted. The division team also collaborates with many external agencies and stakeholders to leverage resources for schools, identify and implement best practices, and promote effective strategies that are coordinated to address specific student needs, avoid duplication, reduce barriers and fill gaps in services.

The Highly Mobile and At-Risk Student Programs Division is developing tools and resources for schools to create awareness and promote best practices for educating and effectively serving highly-mobile and at-risk special populations. The division is implementing state and federal policies addressing at-risk youth and dropout prevention, analyzing data and research, providing stakeholder training and guidance, and coordinating an array of support services for students to address multiple needs that impact student success, including:

- Mental Health/Behavioral Health Coordination
- Pregnancy Related Services
- McKinney-Vento Homeless Education
- Foster Care and Student Success
- Child Abuse Prevention
- Human Trafficking and Displaced Persons Awareness
- Military Connected Youth
- Migrant Education

In addition, this division is leading implementation of the Hurricane Harvey Task Force on School Mental Health Supports to address relief efforts that are needed in the disaster areas in Education Service Center Regions 2, 3, 4 and 5 along the Texas Coast. Under the direction of TEA leadership, and in collaboration with the Health and Human Services Commission (HHSC) and the Texas Higher Education Coordinating Board, this Task Force is identifying resources and connecting supportive services with schools to support youth at-risk, as well as educators, who were impacted by Hurricane Harvey. This effort is also aligned with the goals and strategies of the state’s Behavioral Health Strategic Plan coordinated by HHSC. The agency has also engaged numerous private providers, education associations and policy organizations to support students and schools with linking up to needed resources, such as crisis counseling services.

In 2018, TEA’s goal is to continue to support hurricane recovery, build capacity and long-term infrastructure to better help schools support and educate special populations. In addition to the specific program data annually shared in this report, TEA intends to communicate key results, including cross-agency coordination, achieved by the Special
Populations Department and the Highly Mobile and At-Risk Students Division in the next 2018 report. TEA also has widely promoted Restorative Discipline Practices and plans to continue training trainers in each region of the state.

**COMMUNITIES IN SCHOOLS (CIS)**

The CIS program is governed by Texas Education Code, §§33.151-159; 19 Texas Administrative Code, Chapter 89, Subchapter EE; and the General Appropriations Act, Article III, Rider 22, 85th Texas Legislature, 2017. CIS is a collection of affiliated non-profit corporations that place full-time staff within each school to deliver a wide range of services to students most at-risk of dropping out. Campus-based programming can include crisis intervention, individual counseling, support groups, life skills, tutoring, mentoring, parent engagement, and enrichment activities—all targeted to meet the individual needs of students so they can fully engage in learning and be academically successful. CIS begins work on a campus by performing a needs assessment to decide how best to help the school in supporting the student population. Tier I, or schoolwide services, are given to address the needs of the full campus population while Tier II and Tier III services offer group and individual services targeted to individual student needs. CIS engages the community and other service providers to support the work on a campus.

*Monitoring, Tracking, and Effectiveness*

To administer the program, TEA manages a set of policies, requirements, and a CIS student-level database. The agency provides technical support to and coordination of the CIS programs. TEA continuously monitors student data and reports performance outcomes to the legislature and other stakeholders on a quarterly basis.

AMACHI TEXAS (MENTORING)

Amachi Texas is authorized by the General Appropriations Act, Article III, Rider 53, 84th Texas Legislature, 2015. Amachi Texas provides one-to-one mentoring for youth ages 6 – 18 whose parents or family members are incarcerated, on probation, or recently released from the prison system. The goal is to “break the cycle” of incarceration in Texas and thereby positively impact school districts across the state. The youth that are served are referred through partnerships such as agreements with the Texas Department of Criminal Justice, Prison Fellowship and re-entry programs across Texas. The youth are engaged in both school-based and community-based mentoring relationships with trained volunteers. Ongoing supervision, support and training for volunteers are provided to support retention of mentors. Services include match-support and group activities for the volunteers, families and students served.

Big Brothers Big Sisters (BBBS) Lone Star implements the Amachi mentoring program. BBBS Lone Star subcontracts with eight BBBS agencies throughout Texas to provide mentoring for children of incarcerated adults.

Monitoring, Tracking, and Effectiveness

Progress reports are provided to TEA quarterly. BBBS Lone Star reports outcomes to TEA annually. TEA has assigned a program specialist to monitor quarterly data reports and the final annual report of program outcomes. TEA program staff convenes meetings with BBBS leadership during the school year in order to provide guidance and to ensure the program is on track to accomplish goals.

* According to the Teacher, Parent End of Year Survey Report
This supplemental academic enrichment program is funded under the Elementary and Secondary Education Act, Title IV, Part B, Every Student Succeeds Act. The 21st Century Community Learning Centers (also known as Texas Afterschool Centers on Education or Texas ACE) provides academic enrichment opportunities during out-of-school hours for students in high-poverty and/or low performing schools. This federal formula grant is awarded to the Texas Education Agency, which in turn, competitively awards grants to eligible sub-grantees to implement high-quality afterschool and summer programs. The Texas ACE Centers provide programs and services to support five key areas: academic performance, school attendance, school behavior, promotion rates, and graduation rates.

**Monitoring, Tracking, and Effectiveness**

To ensure that grantees funded by the ACE program are positioned to achieve program objectives, TEA has developed a research-based Critical Success Model (CSM). This model includes four Critical Success Factors (CSFs) which represent behavioral changes that should be demonstrated by students and families enrolled in the program, or by the adults working on their behalf, to ensure success in meeting programmatic goals and objectives. TEA contracts with an independent evaluator to determine which program strategies and approaches are most effective within particular contexts in encouraging student behaviors (CSFs) that lead to improved student outcomes.

TEXAS ACADEMIC INNOVATION AND MENTORING

This prevention program is funded by the General Appropriations Act, Article III, Rider 54, 84th Texas Legislature, 2015. The purpose of Texas Academic Innovation and Mentoring (AIM) is to expand statewide an after-school and summer program designed to close the student achievement gap between minority, low-income, and English Language Learners who are at risk of dropping out of school and their counterparts. The program enables targeted students in low performing schools at 58 sites across Texas to enroll in after-school and summer recreational programs that effectively address student achievement gaps through a combination of skills gap remediation and at-risk prevention services. One half of the service sites are along the Texas-Mexico border. While traditional Boys & Girls Clubs (BGC) programming addresses comprehensive prevention needs, the Texas AIM partner, Sylvan Learning Center, provides evidence-based curriculum through certified teachers. BGC staff assists the teachers. Through joint delivery of the program, children receive seamless services from two strong partners. Additionally, the staff development that BGC receives from the Sylvan partnership enables growth and capacity building for the BGC.

Monitoring, Tracking, and Effectiveness

The BGC and Sylvan Learning Center collect and monitor student data. Student level data is used during the school year to identify the academic needs of each individual student and to inform the provision of services for each student. The TEA program manager develops a progress report in order to manage program performance. The summary performance data is reported to TEA at scheduled points during the year, and is reported to TEA in a final performance report at the end of the school year.

* An academic level is defined as an increase in Growth Scale Value from pre-assessment to post.

** Satisfactory or unsatisfactory scores were collected from 524 youth statewide.
The Texas ChalleNGe Academy (TCA) is an evidence-based program designed to provide opportunities to adolescents who have dropped out of school but demonstrate a desire to improve their potential for successful and productive lives. A voluntary, preventive program, the National Guard Youth ChalleNGe Program (NGYCP) helps young people improve their life skills, education levels and employment potential. Sixteen-to-18-year-old male and female high school dropouts are eligible to apply for the 17-month program, which includes a five-month residential phase followed by a 12-month mentoring phase. TCA was created in 1994 as an AmeriCorps Program and transitioned to a National Guard Youth ChalleNGe Program (Seaborne ChalleNGe Corps) in 1999. Hurricane Ike’s landfall on Galveston Island in 2008 forced the program to relocate to Sheffield, Texas. Texas has opened a second campus in Eagle Lake which began serving students in July 2015. Additionally, in January 2017, TCA switched to an off-cycle class schedule, with classes starting every three months, in order to reduce applicant wait time between cycle breaks.

Authorized and funded through the Department of Defense, the National Guard Bureau is responsible for management and oversight of the 40 ChalleNGe academies that have graduated more than 120,000 participants to date. Led by professionals who emphasize structure, discipline, education and life skills, the Youth ChalleNGe Program provides those who drop out of school the chance to grow into productive and accomplished young adults.

**Monitoring, Tracking, and Effectiveness**

Independent evaluations have found the Youth ChalleNGe program to be effective. MDRC, a social policy research organization, concluded a multi-year evaluation of the Youth ChalleNGe Program and found it significantly improves the educational attainment, employability and income earning potential of those who participate in the program. A RAND Corporation cost-benefit analysis found the Youth ChalleNGe Program generates $2.66 in benefits for every dollar expended on the program, a return on investment of 166 percent. This rate of return is substantially above that for other rigorously evaluated social programs that target disadvantaged youth. Recently, Promising Practices Network identified the ChalleNGe Program as a "proven" program. "The Texas ChalleNGe Academy has graduated 859 students in the past five years with an average high school completion rate of 63%. The average academic growth rate was over two years with an average of five academic credits recovered during the 22 week residential phase.

SECTION 4:
Dropout and Delinquency Prevention and Intervention Coordination Activities of Rider 17.05 Workgroup

IN THE PREVIOUS YEAR, THE WORKGROUP HAS ENGAGED IN THE FOLLOWING ACTIVITIES:

- Examined each of the delinquency, dropout prevention and intervention programs funded by participating agencies, the populations and locations served, and evidence of the programs’ effectiveness. (See Appendix A)
- Informed the convening of an Education Summit held in November 2016 as part of the Strengthening Youth and Families Conference.
- Shared information and updates on agency and legislative activities which stand to impact various prevention/intervention efforts, including:
  - Results from TJJD data matching project with TEA to track outcomes of children and youth served by TJJD prevention programs.
  - Strategies used by the Texas Military Department to meet the changing needs of students being referred for services following truancy reform.
  - TEA efforts to strengthen support for special student populations; including students who are disabled, English learners, homeless, in foster care, displaced, trafficked, migrant, military connected, have mental health or behavioral health challenges, are highly-mobile or are at-risk.
    - TEA reorganized in the spring of 2017 to develop a new Special Populations Department and a Highly Mobile and At-Risk Students Division that will focus on implementing strategic priorities for these populations; including coordinated prevention and intervention.
  - Legislative decisions related to dropout or delinquency prevention/early intervention, such as:
    - Dissemination of information to schools on effective practices in creating trauma-informed, positive school climates
    - Dissemination of information to community youth service providers on the range of programs and services available across systems
    - Designating DFPS as an independent agency outside of the Health and Human Service Commission.
  - The potential impact of District of Innovation Plans on dropout and delinquency prevention efforts.
SECTION 5:  
Key Considerations and Next Steps in Coordinating Services

The workgroup identified several areas of consideration requiring focused attention for continuing efforts. Several of these activities are driven in large part by the engagement of other agencies or entities, as well as legislative direction.

CONSIDERATION 1:

Truancy reform has changed the way dropout and delinquency prevention and intervention services are provided.

With the passage of HB 2398 by the 84th Texas Legislature, schools have primary responsibility for preventing and addressing truancy. The workgroup reviewed and discussed the new policies to support implementation. Schools are now required to implement truancy prevention and intervention strategies before referring a student to criminal court for truancy. Schools must document the prevention and intervention strategies used before they can refer a family to civil court for truancy. School districts are also required to have a truancy prevention facilitator or juvenile case manager to implement truancy prevention within the district. Interventions can include both school-based community services and referrals to community-based services aimed at addressing the student's truancy. Schools may provide truancy prevention services internally or refer families to state-sponsored community-based providers. For students who are at-risk for truancy and are homeless, pregnant, in foster care or are the primary earners for their families, schools are required to offer additional counseling support, in lieu of referral to truancy court, if the truancy is related to those student characteristics.

The best practices for school districts include conducting a needs assessment and identification of truancy prevention and intervention resources in the community. Best practices also include developing collaborative partnerships, including planning, referral, and cross-training opportunities, between appropriate school staff, attendance officers, program-related liaisons, and external partners such as court representatives, community and faith-based organizations, state or locally funded community programs for truancy intervention or prevention, and law enforcement to assist students.

However, community providers continue to express concern that there is a gap that needs to be addressed for efficient and effective engagement and coordination of community service providers. Some concerns identified and discussed by the group were:

- Truancy prevention and intervention programs or strategies are developed by local school districts. Those interventions and strategies are often unknown to community providers so the providers are unable to effectively collaborate.
- There is not a statutory requirement for school districts to post locally, or report to TEA for posting on its state Website, the name/contact information of the truancy prevention facilitator or juvenile case manager. This gap makes it difficult for community providers to communicate and collaborate with the correct district official.
- The plans, protocols, programs, or interventions that schools implement for truancy prevention and intervention are not required to be reported to the state or posted locally on district Websites.
- Available community services for families to select and access for truancy prevention and intervention...
This transition has proved challenging not only for many schools and parents, but also for the community-based organizations that serve at-risk youth through grants and contracts with TJJD, DFPS and from the Texas Military Department.

In the past, courts have served as a centralized “hub” where youth could be connected with community-based services, such as truancy, delinquency and substance abuse prevention and intervention providers. Schools are now that “hub”, but there is no requirement for schools to coordinate with community providers or provide families with options for prevention/intervention services. Service providers in local communities must now develop referral networks and it is difficult for providers to develop relationships with multiple independent school districts and campuses. Schools and parents are often unaware of what truancy prevention and intervention services are available in their communities. Often parents do not have options or a voice to connect with service providers available to provide interventions.

The landscape for engaging community service providers varies across the state. In some communities, schools rely on community-based partnerships to address truancy, which stretches the capacity of some community-based programs. However, many community providers experience difficulty with getting inside the school doors; although the TEA rules identify collaboration with community providers as a best practice.

Following implementation of HB 2398, both STAR providers and the Texas ChalleNGe Academy have experienced drops in enrollment. The workgroup agencies have taken steps to help providers adjust to the changed landscape and broadly shared information to outreach to schools, improve service utilization and coordination. DFPS has provided their contracted providers with additional guidance and is engaging them to think creatively with their outreach and engagement strategies. The ChalleNGe Academy has increased its outreach to schools and adjusted its recruitment strategies. TEA has presented information to the coordinating agencies and to service providers to assist with outreach strategies to schools, and shared resource information in its provider and education networks. The community-based prevention providers have been outreaching directly to schools, but often it is not effective. The agencies participated in a stakeholder meeting to discuss these challenges and generate ideas.

The coordination workgroup recognizes that any new policy takes time to implement effectively, and adjustments are often necessary in policy and programs. It also takes time for all organizations to develop new business strategies and relationships. Frequently information must be provided in several formats, to several stakeholders and often several times for outreach to be effective. There may be policies or additional strategies that the state could implement to increase effective coordination between school districts and state sponsored community intervention and prevention programs. No data is currently collected on implementation of the new policy.

To address this consideration, the workgroup will:

- Explore opportunities for the agencies to jointly develop a resource guide of state sponsored truancy intervention and prevention strategies and programs
- Continue to identify additional coordination activities to increase awareness of community-based resources available to schools
- Assist prevention and intervention providers with professional development in engaging schools, building effective partnerships with them, and thinking “outside of the box”
- Investigate how to identify ISD truancy prevention contacts and discuss the barriers with agency leadership
- Identify and target outreach to ISD truancy contacts
- Investigate how DFPS and TEA can work together to target truancy prevention to students in foster care
CONSIDERATION 2:

Active, untreated behavioral health concerns in students remain an on-going challenge in dropout and delinquency prevention and intervention.

As schools become more effective in addressing the needs of at-risk students, in-district providers of community prevention and intervention providers are serving students with increasingly complex needs. Students with serious mental health concerns are twice as likely as peers without serious mental health concerns to drop out of school.\(^7\) Between 1999 and 2009, nine out of ten students classified as having an emotional disturbance in a Texas public school were suspended or expelled from school for discretionary reasons.\(^8\) In 2014, 54% of youth offenders committed to the Texas Juvenile Justice Department (TJJD) had a need for treatment by a licensed or specially trained provider for a mental health related issue,\(^9\) more than double what would be expected in the general population. During the same year, 93% of youth committed to TJJD were in need of alcohol or drug treatment.\(^10\) STAR providers with DFPS report mental health and substance use concerns among the top three presenting problems they see with youth referred to them.

The workgroup discussed that not all dropout and delinquency prevention and intervention programs are equipped to serve youth with significant needs. When a youth presents with mental or behavioral health concerns the provider is unable to address, it is important that the provider has a referral network to make sure the youth and family is connected to the services that he or she needs to be successful.

To address this consideration, the workgroup will:

- Explore opportunities to engage with the Texas Statewide Coordinated Behavioral Health Council, led by the Health and Human Services Commission, in order to improve provider referral networks, and increase access to behavioral health services for youth who are at-risk
- TEA created a position for mental health/behavioral health coordination through its Highly Mobile and At-Risk Students Division and plans to strengthen resource information for schools on its Website and through interagency training and technical assistance in 2018.

---

CONSIDERATION 3:

Districts of Innovation provide opportunities and challenges for dropout and delinquency prevention and intervention efforts.

In the 84th Session, the Texas Legislature established Districts of Innovation (Texas Education Code Sec. 12A.001), a designation that allows districts with acceptable performance ratings to be granted exemptions from certain sections of the Education Code that inhibit the goals identified by the districts as necessary for student success. Districts are required to submit their District of Innovation Plans to the Texas Education Agency. TEA does not have the authority to approve a district's innovation plan, however the agency can engage in investigative, intervention and enforcement activities if a district is not in compliance with legal requirements for which exemptions are not allowed.

Several districts designated as a District of Innovation have claimed exemptions from the requirement for a person be designated to serve as the Campus Behavior Coordinator (Texas Education Code 37.0012). These districts view the requirement as a barrier to providing a personal, collaborative approach to student discipline through efforts such as Positive Behavior Intervention and Supports (PBIS) and restorative justice and providing social and emotional supports to students. Other districts have sought for exemptions that would allow them to expel a student for persistent misbehavior which can interfere with dropout and delinquency prevention efforts. See the TEA website: [http://tea.texas.gov/Texas_Schools/District_Initiatives/Districts_of_Innovation/](http://tea.texas.gov/Texas_Schools/District_Initiatives/Districts_of_Innovation/) for more information and links to each school district's plan.

To address this consideration, the workgroup will:

- Review strategies districts are using to prevent dropout and delinquency in order to inform member agencies dropout and delinquency prevention efforts and to learn more about the strategies across agencies.
- Investigate opportunities for the workgroup to collaboratively provide districts with evidence-supported best-practice guidance or additional suggestions on promoting the educational success of at-risk students.
- Share any workgroup recommendations with agency leadership of each agency.
- TEA plans to develop additional resources to support positive behavior interventions, such as trauma-informed practices and multi-tiered systems of support, for at-risk students through its new Special Populations Department and will engage the workgroup in this process.
- TEA plans to continue support and training to promote restorative discipline practices.
APPENDIX A:
Detailed Information of Workgroup Agency Delinquency and Dropout Prevention and Intervention Services

Rider 17.07 Coordination of Prevention Services Workgroup

DEPARTMENT OF FAMILY AND PROTECTIVE SERVICES

STATEWIDE YOUTH SERVICES NETWORK (SYSN): Provide prevention and early intervention programs that seek to increase protective factors and target services to at-risk youth for prevention of poor outcomes associated with juvenile delinquency. SYSN contracts provide community and evidence-based juvenile delinquency prevention programs focused on youth ages 10-17 in each DFPS region. The SYSN program was funded through Rider 32 during the 80th Legislature. The rider indicated that $3,000,000 of the initial funding be allocated.

BIG BROTHERS BIG SISTERS LONE STAR

Total Funds FY 16: $1,525,000

Brief Description of Program: Provides School-Based Mentoring and Community-Based Mentoring. The Statewide Youth Services Network contracts provide community and evidence-based juvenile delinquency prevention programs focused on youth ages 10 through 17, in each DFPS region.

Number of Youth Served FY 16: 1,738

Eligibility Requirements: Youth ages 6 through 17. Target ages are 10-17. Youth in the conservatorship of CPS are not eligible to receive SYSN services. Youth who have involvement with Juvenile Probation are not eligible to receive SYSN services. Youth who are on informal probation or have not been adjudicated are eligible. If Child Protective Services (CPS) is in the process of an investigation of child abuse/neglect, SYSN Contractors may not register the youth or family for services until the CPS investigation is closed.

Data Elements Collected: Demographic Information, risk factors, services provided, average monthly served, DFPS Pre & Post Protective Factor Surveys, attendance.
Evidence of Effectiveness: Use of Evidence-Based Programs. Use of BBBS Strength of Relationship Survey measuring happiness, closeness, and coping. Also uses the BBBS Youth Outcome Pre-Post Survey measuring dimensions of the mentoring relationship (social competence, scholastic competency, social acceptance, educational expectations, grades, truancy, attitudes towards risk, parental trust, and presence of special adult. These measures have been found to be reliable and valid based on previous youth development research.

Texas Alliance of Boys and Girls Clubs

Total Funds FY 16: $1,525,000

Brief Description of Program: Boys & Girls Club Experience, Stay Smart Youth-Based Curriculum, Smart Leaders Youth Leadership Development

Number of Youth Served FY 16: 2,277

Eligibility Requirements: Youth ages 6 through 17. Target ages are 10-17. Youth in the conservatorship of CPS are not eligible to receive SYSN services. Youth who have involvement with Juvenile Probation are not eligible to receive SYSN services. Youth who are on informal probation or have not been adjudicated are eligible. If Child Protective Services (CPS) is in the process of an investigation of child abuse/neglect, SYSN Contractors may not register the youth or family for services until the CPS investigation is closed.

Data Elements Collected: Demographic Information, risk factors, services provided, average monthly served, DFPS Pre & Post Protective Factor Surveys, attendance

Evidence of Effectiveness: Use of Evidence-Based programs. Programs include Boys & Girls Club Experience, Stay Smart Youth-Based Curriculum, and Smart Leaders Youth Leadership Development

Community Youth Development (CYD): Overview of Agency Prevention Programs: To reduce juvenile crime in 15 targeted zip codes that have the highest incidence of juvenile crime in the State of Texas. The benefit is a reduction in referrals to juvenile probation and an increase in protective factors by participating youth. This program has been funded since the 75th Legislature in Rider 23.

Lubbock Regional MHMR

Total Funds FY 16: $402,620.00

Brief Description of Program: CYD program contracts with community-based organizations to develop juvenile delinquency prevention programs in zip codes with high juvenile crime rates. Approaches used by communities to prevent delinquency have included mentoring, youth employment programs, career preparation, academic support, life skills classes, youth-based curriculum, family-based curriculum, youth leadership development and recreational activities. Communities prioritize and fund specific prevention services according to local needs. CYD services are available in 15 targeted Texas zip codes.
Number of Youth Served FY 16: 1,181

Counties Served: Lubbock  City: Lubbock  Zip Code: 79415

Eligibility Requirements: Youth through age 17 residing in or attending school in the targeted zip code or attending school at an additional eligible school. Target ages are 10-17. Can have a CPS case. Cannot have been or currently be on probation. Youth whose cases are pre-adjudicated, informally adjudicated, or whose adjudication has been deferred are eligible.

Data Elements Collected: Demographic Information, risk factors, juvenile probation status, services provided, average monthly served, DFPS Pre & Post Protective Factor Surveys, attendance

Evidence of Effectiveness: The Protective Factors Survey (PFS) is used to evaluate CYD program effectiveness in reducing juvenile delinquent behavior. Improvement was shown in protective factors and resiliency at Post-Test assessment. Programs are having an impact on individual, family, and community functioning.

UNITED WAY OF AMARILLO & CANYON

Total Funds FY 16: $402,620.00

Brief Description of Program: CYD program contracts with community-based organizations to develop juvenile delinquency prevention programs in zip codes with high juvenile crime rates. Approaches used by communities to prevent delinquency have included mentoring, youth employment programs, career preparation, academic support, life skills classes, youth-based curriculum, family-based curriculum, youth leadership development and recreational activities. Communities prioritize and fund specific prevention services according to local needs. CYD services are available in 15 targeted Texas zip codes.

Number of Youth Served FY 16: 875

Counties Served: Potter  City: Amarillo  Zip Code: 79107

Eligibility Requirements: Youth through age 17 residing in or attending school in the targeted zip code or attending school at an additional eligible school. Target ages are 10-17. Can have a CPS case. Cannot have been or currently be on probation. Youth whose cases are pre-adjudicated, informally adjudicated, or whose adjudication has been deferred are eligible.

Data Elements Collected: Demographic Information, risk factors, juvenile probation status, services provided, average monthly served, DFPS Pre & Post Protective Factor Surveys, attendance

Evidence of Effectiveness: The Protective Factors Survey (PFS) is used to evaluate CYD program effectiveness in reducing juvenile delinquent behavior. Improvement was shown in protective factors and resiliency at Post-Test assessment. Programs are having an impact on individual, family, and community functioning.

CITY OF AUSTIN HEALTH AND HUMAN SERVICES

Total Funds FY 16: $402,620.00

Brief Description of Program: CYD program contracts with community-based organizations to develop juvenile delinquency prevention programs in zip codes with high juvenile crime rates. Approaches used by communities to prevent delinquency have included mentoring, youth employment programs, career preparation, academic support, life skills classes, youth-based curriculum, family-based curriculum, youth
leadership development and recreational activities. Communities prioritize and fund specific prevention services according to local needs. CYD services are available in 15 targeted Texas zip codes.

**Number of Youth Served FY 16:** 1,530

**Counties Served:** Travis  
**City:** Austin  
**Zip Code:** 78744

**Eligibility Requirements:** Youth through age 17 residing in or attending school in the targeted zip code or attending school at an additional eligible school. Target ages are 10-17. Can have a CPS case. Cannot have been or currently be on probation. Youth whose cases are pre-adjudicated, informally adjudicated, or whose adjudication has been deferred are eligible.

**Data Elements Collected:** Demographic Information, risk factors, juvenile probation status, services provided, average monthly served, DFPS Pre & Post Protective Factor Surveys, attendance

**Evidence of Effectiveness:** The Protective Factors Survey (PFS) is used to evaluate CYD program effectiveness in reducing juvenile delinquent behavior. Improvement was shown in protective factors and resiliency at Post-Test assessment. Programs are having an impact on individual, family, and community functioning.

**The Good Samaritan Service Center of Brownsville**

**Total Funds FY 16:** $402,620.00

**Brief Description of Program:** CYD program contracts with community-based organizations to develop juvenile delinquency prevention programs in zip codes with high juvenile crime rates. Approaches used by communities to prevent delinquency have included mentoring, youth employment programs, career preparation, academic support, life skills classes, youth-based curriculum, family-based curriculum, youth leadership development and recreational activities. Communities prioritize and fund specific prevention services according to local needs. CYD services are available in 15 targeted Texas zip codes.

**Number of Youth Served FY 16:** 392

**Counties Served:** Cameron  
**City:** Brownsville  
**Zip Code:** 78520

**Eligibility Requirements:** Youth through age 17 residing in or attending school in the targeted zip code or attending school at an additional eligible school. Target ages are 10-17. Can have a CPS case. Cannot have been or currently be on probation. Youth whose cases are pre-adjudicated, informally adjudicated, or whose adjudication has been deferred are eligible.

**Data Elements Collected:** Demographic Information, risk factors, juvenile probation status, services provided, average monthly served, DFPS Pre & Post Protective Factor Surveys, attendance

**Evidence of Effectiveness:** The Protective Factors Survey (PFS) is used to evaluate CYD program effectiveness in reducing juvenile delinquent behavior. Improvement was shown in protective factors and resiliency at Post-Test assessment. Programs are having an impact on individual, family, and community functioning.

**Rio Grande Empowerment Zone Corporation (McAllen)**

**Total Funds FY 16:** $402,620.00

**Brief Description of Program:** CYD program contracts with community-based organizations to develop juvenile delinquency prevention programs in zip codes with high juvenile crime rates. Approaches used
by communities to prevent delinquency have included mentoring, youth employment programs, career preparation, academic support, life skills classes, youth-based curriculum, family-based curriculum, youth leadership development, and recreational activities. Communities prioritize and fund specific prevention services according to local needs. CYD services are available in 15 targeted Texas zip codes.

**Number of Youth Served FY 16:** 1,546

**Counties Served:** Hidalgo  
**City:** McAllen  
**Zip Code:** 78501

**Eligibility Requirements:** Youth through age 17 residing in or attending school in the targeted zip code or attending school at an additional eligible school. Target ages are 10-17. Can have a CPS case. Cannot have been or currently be on probation. Youth whose cases are pre-adjudicated, informally adjudicated, or whose adjudication has been deferred are eligible.

**Data Elements Collected:** Demographic Information, risk factors, juvenile probation status, services provided, average monthly served, DFPS Pre & Post Protective Factor Surveys, attendance

**Evidence of Effectiveness:** The Protective Factors Survey (PFS) is used to evaluate CYD program effectiveness in reducing juvenile delinquent behavior. Improvement was shown in protective factors and resiliency at Post-Test assessment. Programs are having an impact on individual, family, and community functioning.

**City of Corpus Christi Parks & Recreation**

**Total Funds FY 16:** $396,765.44

**Brief Description of Program:** CYD program contracts with community-based organizations to develop juvenile delinquency prevention programs in zip codes with high juvenile crime rates. Approaches used by communities to prevent delinquency have included mentoring, youth employment programs, career preparation, academic support, life skills classes, youth-based curriculum, family-based curriculum, youth leadership development and recreational activities. Communities prioritize and fund specific prevention services according to local needs. CYD services are available in 15 targeted Texas zip codes.

**Number of Youth Served FY 16:** 1,064

**Counties Served:** Nueces  
**City:** Corpus Christi  
**Zip Code:** 78415

**Eligibility Requirements:** Youth through age 17 residing in or attending school in the targeted zip code or attending school at an additional eligible school. Target ages are 10-17. Can have a CPS case. Cannot have been or currently be on probation. Youth whose cases are pre-adjudicated, informally adjudicated, or whose adjudication has been deferred are eligible.

**Data Elements Collected:** Demographic Information, risk factors, juvenile probation status, services provided, average monthly served, DFPS Pre & Post Protective Factor Surveys, attendance

**Evidence of Effectiveness:** The Protective Factors Survey (PFS) is used to evaluate CYD program effectiveness in reducing juvenile delinquent behavior. Improvement was shown in protective factors and resiliency at Post-Test assessment. Programs are having an impact on individual, family, and community functioning.

**Community Council of Greater Dallas (CCGD)**

**Total Funds FY 16:**  
Zip Code 75216: $402,620.00  
Zip Code 75217: $402,620.00
**Brief Description of Program:** CYD program contracts with community-based organizations to develop juvenile delinquency prevention programs in zip codes with high juvenile crime rates. Approaches used by communities to prevent delinquency have included mentoring, youth employment programs, career preparation, academic support, life skills classes, youth-based curriculum, family-based curriculum, youth leadership development and recreational activities. Communities prioritize and fund specific prevention services according to local needs. CYD services are available in 15 targeted Texas zip codes.

**Number of Youth Served FY 16:**
- Zip Code 75216: 990
- Zip Code 75217: 1,118

**Counties Served:** Dallas  
**City:** Dallas  
**Zip Codes:** 75216, 75217

**Eligibility Requirements:** Youth through age 17 residing in or attending school in the targeted zip code or attending school at an additional eligible school. Target ages are 10-17. Can have a CPS case. Cannot have been or currently be on probation. Youth whose cases are pre-adjudicated, informally adjudicated, or whose adjudication has been deferred are eligible.

**Data Elements Collected:** Demographic Information, risk factors, juvenile probation status, services provided, average monthly served, DFPS Pre & Post Protective Factor Surveys, attendance

**Evidence of Effectiveness:** The Protective Factors Survey (PFS) is used to evaluate CYD program effectiveness in reducing juvenile delinquent behavior. Improvement was shown in protective factors and resiliency at Post-Test assessment. Programs are having an impact on individual, family, and community functioning.

---

**Brief Description of Program:** CYD program contracts with community-based organizations to develop juvenile delinquency prevention programs in zip codes with high juvenile crime rates. Approaches used by communities to prevent delinquency have included mentoring, youth employment programs, career preparation, academic support, life skills classes, youth-based curriculum, family-based curriculum, youth leadership development and recreational activities. Communities prioritize and fund specific prevention services according to local needs. CYD services are available in 15 targeted Texas zip codes.

**Number of Youth Served FY 16:** 1,063

**Counties Served:** El Paso  
**City:** El Paso  
**Zip Code:** 79924

**Eligibility Requirements:** Youth through age 17 residing in or attending school in the targeted zip code or attending school at an additional eligible school. Target ages are 10-17. Can have a CPS case. Cannot have been or currently be on probation. Youth whose cases are pre-adjudicated, informally adjudicated, or whose adjudication has been deferred are eligible.

**Data Elements Collected:** Demographic Information, risk factors, juvenile probation status, services provided, average monthly served, DFPS Pre & Post Protective Factor Surveys, attendance

**Evidence of Effectiveness:** The Protective Factors Survey (PFS) is used to evaluate CYD program effectiveness in reducing juvenile delinquent behavior. Improvement was shown in protective factors and resiliency at Post-Test assessment. Programs are having an impact on individual, family, and community functioning.
Tarrant County

**Total Funds FY 16:** $402,620.00

**Brief Description of Program:** CYD program contracts with community-based organizations to develop juvenile delinquency prevention programs in zip codes with high juvenile crime rates. Approaches used by communities to prevent delinquency have included mentoring, youth employment programs, career preparation, academic support, life skills classes, youth-based curriculum, family-based curriculum, youth leadership development and recreational activities. Communities prioritize and fund specific prevention services according to local needs. CYD services are available in 15 targeted Texas zip codes.

**Number of Youth Served FY 16:** 1,130

**Counties Served:** Tarrant  
**City:** Fort Worth  
**Zip Codes:** 76106, 76164

**Eligibility Requirements:** Youth through age 17 residing in or attending school in the targeted zip code or attending school at an additional eligible school. Target ages are 10-17. Can have a CPS case. Cannot have been or currently be on probation. Youth whose cases are pre-adjudicated, informally adjudicated, or whose adjudication has been deferred are eligible.

**Data Elements Collected:** Demographic Information, risk factors, juvenile probation status, services provided, average monthly served, DFPS Pre & Post Protective Factor Surveys, attendance

**Evidence of Effectiveness:** The Protective Factors Survey (PFS) is used to evaluate CYD program effectiveness in reducing juvenile delinquent behavior. Improvement was shown in protective factors and resiliency at Post-Test assessment. Programs are having an impact on individual, family, and community functioning.

The Children's Center

**Total Funds FY 16:** $402,620.00

**Brief Description of Program:** CYD program contracts with community-based organizations to develop juvenile delinquency prevention programs in zip codes with high juvenile crime rates. Approaches used by communities to prevent delinquency have included mentoring, youth employment programs, career preparation, academic support, life skills classes, youth-based curriculum, family-based curriculum, youth leadership development and recreational activities. Communities prioritize and fund specific prevention services according to local needs. CYD services are available in 15 targeted Texas zip codes.

**Number of Youth Served FY 16:** 902

**Counties Served:** Galveston  
**City:** Galveston  
**Zip Code:** 77550

**Eligibility Requirements:** Youth through age 17 residing in or attending school in the targeted zip code or attending school at an additional eligible school. Target ages are 10-17. Can have a CPS case. Cannot have been or currently be on probation. Youth whose cases are pre-adjudicated, informally adjudicated, or whose adjudication has been deferred are eligible.

**Data Elements Collected:** Demographic Information, risk factors, juvenile probation status, services provided, average monthly served, DFPS Pre & Post Protective Factor Surveys, attendance

**Evidence of Effectiveness:** The Protective Factors Survey (PFS) is used to evaluate CYD program effectiveness in reducing juvenile delinquent behavior. Improvement was shown in protective factors and resiliency at Post-Test assessment. Programs are having an impact on individual, family, and community functioning.
HARRIS COUNTY PROTECTIVE SERVICES FOR CHILDREN AND ADULTS

Total Funds FY 16:  
Gulfton (Zip Code: 77081): $402,620.00  
Pasadena (Zip Code: 77506): $402,620.00

Brief Description of Program: CYD program contracts with community-based organizations to develop juvenile delinquency prevention programs in zip codes with high juvenile crime rates. Approaches used by communities to prevent delinquency have included mentoring, youth employment programs, career preparation, academic support, life skills classes, youth-based curriculum, family-based curriculum, youth leadership development and recreational activities. Communities prioritize and fund specific prevention services according to local needs. CYD services are available in 15 targeted Texas zip codes.

Number of Youth Served FY 16:  
Zip Code 77081: 935  
Zip Code 77506: 894

Counties Served: Harris  
Cities: Gulfton, Pasadena  
Zip Codes: 77081, 77506

Eligibility Requirements: Youth through age 17 residing in or attending school in the targeted zip code or attending school at an additional eligible school. Target ages are 10-17. Can have a CPS case. Cannot have been or currently be on probation. Youth whose cases are pre-adjudicated, informally adjudicated, or whose adjudication has been deferred are eligible.

Data Elements Collected: Demographic Information, risk factors, juvenile probation status, services provided, average monthly served, DFPS Pre & Post Protective Factor Surveys, attendance

Evidence of Effectiveness: The Protective Factors Survey (PFS) is used to evaluate CYD program effectiveness in reducing juvenile delinquent behavior. Improvement was shown in protective factors and resiliency at Post-Test assessment. The magnitude was slight but was statistically significant. Programs are having an impact on individual, family, and community functioning.

THE GOOD SAMARITAN SERVICE CENTER OF SAN ANTONIO

Total Funds FY 16: $393,760.18

Brief Description of Program: CYD program contracts with community-based organizations to develop juvenile delinquency prevention programs in zip codes with high juvenile crime rates. Approaches used by communities to prevent delinquency have included mentoring, youth employment programs, career preparation, academic support, life skills classes, youth-based curriculum, family-based curriculum, youth leadership development and recreational activities. Communities prioritize and fund specific prevention services according to local needs. CYD services are available in 15 targeted Texas zip codes.

**Counties Served:** All Eligible CYD ZIP CODES STATEWIDE

**Eligibility Requirements:** Youth through age 17 residing in or attending school in the targeted zip code or attending school at an additional eligible school. Target ages are 10-17. Can have a CPS case. Cannot have been or currently be on probation. Youth whose cases are pre-adjudicated, informally adjudicated, or whose adjudication has been deferred are eligible.

**Data Elements Collected:** Demographic Information, juvenile probation status, services provided, Leadership Skills Pre/Post Survey, attendance

**Evidence of Effectiveness:** Leadership Skills Pre/Post Survey
Overview of Texas Military Department Prevention Programs: The mission of the Texas ChalleNGe Academy (TCA) is to reclaim the potential of at-risk teens through mentoring, education, training and volunteer service. The program is a seventeen and a half month voluntary program for 16-18 year old high school dropouts or those at risk of dropping out. Youth who volunteer to attend the program learn about TCA from various sources including school counselors, advertising campaigns, juvenile case workers, juvenile justice sources and word of mouth from previous attendees. The initial portion of the program is a 22 week residential phase with a quasi-military (learn to adhere to military courtesies, discipline and a regimented schedule) approach in either Sheffield (West Texas) or Eagle Lake (East Texas). During this phase, the cadets complete the eight core components (academic excellence, responsible citizenship, leadership/followership, service to community, jobs skills, life coping skills, health and hygiene, and physical fitness). All the youth are given the opportunity to earn a high school diploma and/or GED or earn credits to return to their home high school. During the residential phase, each youth is paired with an adult mentor of their choosing who will assist them during the entire 12 month post residential phase to ensure they stay on track with their “Post Residential Action Plan” that they developed during the residential phase. All cadets will complete a minimum of 40 hours of community service projects during the residential phase. While the academic opportunities are a vital part of the residential phase, the benefits of the non-cognitive skills developed through the other core components and the discipline and structure of the military training model has shown to greatly enhance the young person’s chances for future success. The program is provided at no cost to the youth or their family and is funded by a combination of federal and state funds (75% federal, 25% state). The TCA campuses are two of the 40 National Guard Youth ChalleNGe Programs which are located in 32 states, Puerto Rico and the District of Columbia. The National Guard Youth Program has been operating nationally since 1993 and for eighteen year in Texas with two campuses at Sheffield and Eagle Lake.

**Total Funds FY 16:** $3.4 million ($2.55 million federal and $0.85 million state) for each campus

**Brief Description of Program:** The mission of the Texas ChalleNGe Academy (TCA) is to reclaim the potential of at-risk teens through mentoring, education, training and volunteer service. The program is a seventeen and a half month voluntary program for 16-18 year old high school dropouts or those at risk of dropping out.

**Number of Youth Served FY 16:** 271 graduates

**Program Locations:** Campuses at Sheffield (West Texas) and Eagle Lake (East Texas) serving youth statewide (Program has six recruiters to select students from all over the state)

**Eligibility Requirement:** 16-18 years old, citizen of Texas/US, not currently on parole/probation for other than “juvenile offenses”, no felony convictions or pending charges, drug free at admission, drop out or at risk of dropping out

**Data Elements Collected:** Number of graduates, percent completing HSD/GED or credit recovery, percent completing post residential phase, hours of community service

**Evidence of Effectiveness:** Yes. Independent study by MRDC. A recent RAND Corporation cost-benefit analysis found the Youth ChalleNGe Program generates $2.66 in benefits for every dollar expended on the program, a return on investment of 166%
ACADEMIC INNOVATION AND MENTORING (AIM)

Total Funds FY 16: $1,500,000

Brief Description of Program: Academic Innovation and Mentoring (AIM) is designed to close the gaps in the student achievement among minority, low-income, and Limited English Proficient students who are at risk of dropping out. Texas AIM is an innovative partnership between Texas Alliance of Boys and Girls Clubs (BGC) and the Sylvan Learning Centers. Support services for students include: after-school academic instruction and tutoring, assigned adult advocates, parent engagement activities, character and leadership development in problem-solving and decision-making, fine arts activities, sports, fitness, recreation, and health and life skills. Texas AIM supports a data system to assess needs, plan services, and monitor student performance and engagement.

Number of Youth Served FY 16: 3,011

Program Locations: 58

Eligibility Requirements: Eligibility for funding is limited to the Texas Boys and Girls Club, as specified in the General Appropriations Act, Article III.

Data Elements Collected: Number of students who advanced an academic level in a math or reading assessment. Number of discipline referrals.

Evidence of Effectiveness: Data elements reported in the FY 2016 final report from Texas AIM include: average monthly cost per student ($55), number of students who advanced an academic level in a math or reading assessment (83%), percentage of youth receiving a C or better in a subject for which they received services (91%), and percentage of students that passed the STAAR state assessment (85%).

21ST CENTURY COMMUNITY LEARNING CENTERS (21ST CCLC)

Total Funds FY 16: $101,389,385

Brief Description of Program: The purpose of the 21st CCLC program is to assist students in meeting state and local academic achievement standards in core subjects, such as reading and mathematics, by providing the students with opportunities for academic enrichment activities and a broad array of other activities during non-school hours or periods when school is not in session. These out-of-school time programs reinforce and complement the regular academic programs of the schools attended by the students served; and offer families of students served by such centers opportunities for literacy and related educational development. The Texas 21st CCLC program operates as the Texas Afterschool Centers on Education (ACE), or Texas ACE.

Number of Youth Served FY 16: 120,368

Program Locations: 477 community learning centers operated in 121 school districts

Eligibility Requirements: Eligible entities include local education agencies (independent school districts, open-enrollment charter schools, and regional education service centers), community-based organizations, nonprofit organizations, city or county government agencies, faith-based organizations, institutions of higher education, for-profit corporations, or a shared services arrangement of two or more of these entities.

Data Elements Collected: Student and family activities, attendance, staffing, and student identifiers to link to state-collected data for outcomes for required program evaluation.
Evidence of Effectiveness: 
- Regular participation in the 21st CCLC program (60-days+) was consistently associated with higher state assessment scores in mathematics.
- Regular participation in the 21st CCLC (60-days or more) by high school students was associated with higher GPAs, more credits earned and increased grade promotion. These high school participants had an average of a 72 percent greater likelihood of being promoted to the next grade level, a 17% reduction on average statewide in school-day absences, and a 14% reduction on average statewide in disciplinary incidents during the school day.
- Higher quality programs boasted a longer duration of student attendance, fewer school-day disciplinary referrals, increased likelihood of grade promotion, and an increase in reading assessment scores.

COMMUNITIES IN SCHOOLS (CIS)

Total Funds FY 16: $20,364,158

Brief Description of Program: The mission of Communities In Schools (CIS) is to surround students with a community of support, empowering them to stay in school and achieve in life. CIS partners with educators, students, and parents to identify needs of students who are at-risk of dropping out of school. Campus-based programming can include crisis intervention, individual counseling, support groups, life skills, tutoring, mentoring, parent engagement, and enrichment activities—all targeted to meet the individual needs of students so they can fully engage in learning and be academically successful. CIS monitors student level data and tracks education outcomes. The CIS program model has six components: academic enhancement and support, college and career awareness, enrichment activities, health and human services, parental and family engagement, and supportive guidance and counseling.

Number of Youth Served FY 16: 93,529 students received intensive case management services.

Program Locations: 146 districts, 942 campuses.

Eligibility Requirements: Eligible grantees include 501(c) (3) nonprofit organizations.

Data Elements Collected: Demographic information, attendance, discipline referrals, grades, statewide assessment scores, school leaver reason, targeted need, and services provided.

Evidence of Effectiveness: During fiscal year 2016, 28 CIS programs served up to 811,308 students on 942 campuses in 146 school districts. Of those, 93,529 were provided with individual case management services. Reported outcomes included: 99% stayed in school (grades 7-12); 95% were promoted to the next grade (grades K-11); 95% of students that were eligible to graduate graduated; 89% of students that were targeted for academic intervention showed improvement; 77% of students that were targeted for attendance intervention showed improvement; and 92% of students that were targeted for behavior intervention showed improvement.

---

**AMACHI**

**Total Funds FY 16**: $1,250,000

**Brief Description of Program**: The purpose of Amachi is to provide one-to-one mentoring for youth ages 6 – 18 whose parents or family members are incarcerated or recently released from the prison system to break the cycle of incarceration. Youth are engaged in mentoring relationships established primarily through partnerships with school districts, faith-based organizations, non-profit partnerships, the Texas Department of Criminal Justice, Prison Fellowship and Re-Entry programs across Texas.

**Number of Youth Served FY 16**: 1,425

**Program Locations**: Dallas metropolitan area, Houston metropolitan area, Central Texas Region, El Paso, Gulf Coast Region, Hereford, Lubbock, the Panhandle Region and the South Texas Region.

**Eligibility Requirements**: Big Brothers Big Sisters (BBBS) Lone Star implements the Amachi mentoring program and subcontracts with eight BBBS programs throughout Texas to provide mentoring for children of incarcerated adults.

**Data Elements Collected**: Data is maintained by BBBS Lone Star. Progress reports are provided to TEA quarterly. BBBS Lone Star reports outcomes to TEA annually.

**Evidence of Effectiveness**: During the 2015-2016 school year, FY 2016, 1,425 students had a mentor and were served. Of these, 89% of matches that were active during the school year were sustained for at least six months. 97.6% of mentored students promoted to the next grade level. 81% of all matches reported improvement in at least one of the four areas of personal and social well-being designed to measure self-confidence. 89% reported improvement in at least one category of improved relationships. Fewer than 1% of the students were referred to the juvenile justice system and 3.4% of students were reported as referred to an alternative education program.
BASTROP COUNTY JUVENILE PROBATION DEPARTMENT

Total Funds FY 16: $37,250

Brief Description of Program: The Cen-Tex Regional Services Department partners with school districts to provide drug awareness education to students who are at-risk for using illegal and/or prescription drugs and provides parenting skills and education to adults whose children, ages 6-17 years of age, are at increased risk of entering the juvenile justice system and uses the “Breaking the Cycle” Program.

Counties Served: Bastrop, Lee, Washington

Number of Youth Served FY 16: 134

Eligibility Requirements: Children between the ages of 6 and 17 years of age and are at risk of entering the juvenile justice system

Data Elements Collected: Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals

Evidence of Effectiveness: 72 of 74 students (97%) completed the program successfully

BEXAR COUNTY JUVENILE PROBATION DEPARTMENT

Total Funds FY 16: $645,845

Brief Description of Program: School based truancy prevention and early intervention program in partnership with Communities In Schools, Southwest Key and the North East Independent School District (ISD). The project targets children and youth who are at increased risk of delinquency, truancy, dropping out of school or referral to the juvenile justice system. The “Claude Black Youth Leadership Institute” component provides mentoring, community service, team-building, computer and technology training, outdoor activities, and etiquette to adolescents. The goal of the Leadership Institute is to provide and engage youth with skills to create meaningful change in their lives and their community; the goal of Project Connect is to benefit the targeted students in their service area by increasing school attendance and decreasing substance abuse, with the objective of diverting these students from the juvenile justice system. A portion of the funds are used to purchase school uniforms and bus passes.

Counties Served: Bexar

Number of Youth Served FY 16: 424

Eligibility Requirements: Youth in the North East ISD who are ages 11-17, not currently under department supervision but who are at increased risk of delinquency, truancy, school dropout, or referrals to the juvenile justice system

Data Elements Collected: Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals

Evidence of Effectiveness: 291 of 346 students (84%) completed the program successfully

BURNET COUNTY JUVENILE PROBATION DEPARTMENT

Total Funds FY 16: $17,305
**Brief Description of Program:** Uses trained facilitators to deliver Curriculum Based Support Group program, a research-based curriculum which reduces anti-social attitudes and rebellious behavior through small group character-building classes.

**Counties Served:** Blanco, Burnet, Gillespie, Llano, and San Saba

**Number of Youth Served FY 16:** 34

**Eligibility Requirements:** Participants are fourth and fifth grade at-risk youth in certain elementary schools

**Data Elements Collected:** Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals

**Evidence of Effectiveness:** 34 students (100%) completed the program successfully

**Cameron County Juvenile Probation Department**

**Total Funds FY 16:** $265,609

**Brief Description of Program:** Contracts with the Boys and Girls Club of San Benito to provide safe and structured afterschool activities, including mentoring, tutoring, educational opportunities and social activities, with a focus on increasing school attendance and academic achievement: after school and summer programs with an educational curriculum, social activities, recreational activities, tutoring, mentoring, arts and crafts, and presentations from different agencies in our community. Rainbow Days “Youth Connection” for 37 program participants; The program provides afterschool and summer programming. Services delivered include mentoring, tutoring, healthy living, recreational and social development opportunities. The youth are tracked in partnership with the local school district. Attendance, academic success, and behavior are monitored and addressed as needed. There are academic/behavior/attendance celebrations where the kids are recognized for their efforts. The additional funds requested would be used to hire additional part-time staff for an additional site and for additional sites in place, supplies for programming, contractual services to expand our efforts.

**Counties Served:** Cameron

**Number of Youth Served FY 16:** 368

**Eligibility Requirements:** High-risk youth, ages 6-17, with a special emphasis on siblings of youth already involved in the juvenile justice system

**Data Elements Collected:** Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals;

**Evidence of Effectiveness:** 366 of 368 students (99%) completed the program successfully; attendance in the program: 98%

**Cooke County Juvenile Probation Department**

**Total Funds FY 16:** $7,500

**Brief Description of Program:** One day program for at-risk youth and their families identified in the community; uses a program called REBOUND that teaches the youth how to handle different situations that they may face; with a challenge course that helps youth figure out problems and work as teams to complete a task, while the parents/guardians/caregivers are in a separate building going through a parent directed program; and the day ends with dinner and an end of program certificate ceremony.
**Counties Served:** Cooke

**Number of Youth Served FY 16:** 14

**Eligibility Requirements:** Siblings, parents, relatives, and friends (total=36) of nine adjudicated juveniles

**Data Elements Collected:** Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals

**Evidence of Effectiveness:** 14 of 14 students (100%) completed the program successfully

**CROSBY COUNTY JUVENILE PROBATION DEPARTMENT**

**Number of Youth Served FY 16:** 102

**Eligibility Requirements:** All students in Hill County schools

**Data Elements Collected:** Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals

**Evidence of Effectiveness:** 92 of 102 students (90.2%) completed the program successfully
LIBERTY COUNTY JUVENILE PROBATION DEPARTMENT

**Total Funds FY 16:** $8,000

**Brief Description of Program:** Partner with local school districts to provide resources to families whose children are at risk for juvenile justice involvement

**Counties Served:** Liberty

**Number of Youth Served FY 16:** 1

**Eligibility Requirements:** Students at risk for involvement in the juvenile justice system and their families

**Data Elements Collected:** Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals

**Evidence of Effectiveness:** Not available

LUBBOCK COUNTY JUVENILE PROBATION DEPARTMENT

**Total Funds FY 16:** $30,000

**Brief Description of Program:** Juveniles In Need Of Supervision (JOINS) program which operates under the Specialized Treatment and Rehabilitation (STAR) Program, is a program designed to assist the Lubbock County Independent School District in identifying and diverting school age kids from disciplinary action by the school and delinquent activity that could result in involvement with the legal system. School officials can make a referral of an “at-risk” student to the STAR Program which would in turn provide services such as counseling, after-school activities, tutoring, and direct supervision during school hours in an effort to change the juvenile’s behavior patterns. Parenting classes were also provided at two community locations.

**Counties Served:** Lubbock

**Number of Youth Served FY 16:** 161

**Eligibility Requirements:** Juveniles who are at risk of removal from school or at risk of committing delinquent activities referred by school district personnel and/or parents.

**Data Elements Collected:** Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals

**Evidence of Effectiveness:** 146 of 161 students (90.6%) completed the program successfully

NUCES COUNTY JUVENILE PROBATION DEPARTMENT

**Total Funds FY 16:** $8,420

**Brief Description of Program:** Provides: 1) Cognitive Behavioral individual (weekly) and family based counseling 1-2 times a month) and 2) Skills-based Behavioral Groups to develop Prosocial Skills

**Counties Served:** Nueces

**Number of Youth Served FY 16:** 99

**Eligibility Requirements:** Youth detained in Nueces County Detention Center prior to further involvement

**Data Elements Collected:** Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals
Evidence of Effectiveness: 92 of 101 students (91%) completed the program successfully

RANDALL COUNTY JUVENILE PROBATION DEPARTMENT

Total Funds FY 16: $9,834

Brief Description of Program: Contracts with Texas AgriLife Extension Service for Randall County to work with selected youth on a 4-H swine project. 4-H swine projects require approximately 300 hours of work training, cleaning out pens, feeding, walking and preparing swine for show. Youth and their families attend periodic training sessions, combining information related to livestock management and character development

Counties Served: Randall

Number of Youth Served FY 16: 6

Eligibility Requirements: Youth, ages 12-14, who have been identified by the school district as having one or more risk factors for delinquency

Data Elements Collected: Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals

Evidence of Effectiveness: 6 of 6 students (100%) completed the program successfully

ROCKWALL COUNTY JUVENILE PROBATION DEPARTMENT

Total Funds FY 16: $42,284

Brief Description of Program: Provides substance abuse out-patient services, on-line education, and credit recovery as needed

Counties Served: Rockwall

Number of Youth Served FY 16: 11

Eligibility Requirements: Youth who were not in attendance and referred to truancy court or behind in credits and referred to the program from Rockwall ISD or Royce City ISD

Data Elements Collected: Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals

Evidence of Effectiveness: 3 of 4 students (75%) completed Life Management Resources out-patient substance abuse treatment and 9 of 11 students (82%) participated in online educational courses at the Bridge School

TARRANT COUNTY JUVENILE PROBATION DEPARTMENT

Total Funds FY 16: $114,348

Brief Description of Program: Family engagement coordinator For Insights program provides a combination of case management and clinical services to select youth in Discipline Alternative Education Programs and their families.

Counties Served: Tarrant
Number of Youth Served FY 16: 42

Eligibility Requirements: Youth (ages 6 years through 5th grade) who have been placed in the school’s Disciplinary Alternative Education Program

Data Elements Collected: Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals

Evidence of Effectiveness: 30 of 42 students (71.4%) completed the program successfully

**TOM GREEN COUNTY JUVENILE PROBATION DEPARTMENT**

Total Funds FY 16: $100,000

Brief Description of Program: Contracts with Youth Advocate Mentoring Program to provide advocate mentors who work intensively with the youth (up to 15 hours per week) and then taper services to fewer hours as the youth progress in the program

Counties Served: Tom Green

Number of Youth Served FY 16: 23

Eligibility Requirements: High risk youth ages 6-13 who are not involved with the juvenile justice system will be referred from selected school districts

Data Elements Collected: Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals

Evidence of Effectiveness: 10 of 13 students (76.9%) completed the program successfully

**TRAVIS COUNTY JUVENILE PROBATION DEPARTMENT**

Total Funds FY 16: $127,864

Brief Description of Program: Contracts with Southwest Key to provide the Family Keys Model (intensive home-based case management services); services for three multi-agency involved youth with needs broader than the home-based case management services (respite care and medical/mental health needs not covered by insurance).

Counties Served: Travis

Number of Youth Served FY 16: 46

Eligibility Requirements: Youth between the ages of 11 and 13 who are truant, running away, experiencing behavioral problems at school, or experiencing conflict with family members

Data Elements Collected: Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals

Evidence of Effectiveness: 42 of 43 students (97.7%) completed the program successfully
**Van Zandt County Juvenile Probation Department**

**Total Funds FY 16:** $53,412

**Brief Description of Program:** The “Just Kids Hands on Pets Education” program is a canine program designed to teach developmentally appropriate discipline, responsibility, compassion for life, motivational problem-solving, self-esteem and nurturing. Special needs youth may also attend a six-week program provided by licensed counselors.

**Counties Served:** Van Zandt

**Number of Youth Served FY 16:** 100

**Eligibility Requirements:** Children and youth ages 6-17 who are at increased risk of involvement with the juvenile justice system. Referrals will come from local school districts, local law enforcement, Child Advocacy Centers, adult probation, child protective services, and local municipal courts.

**Data Elements Collected:** Program length, demographic information, ability to match with juvenile referrals, school attendance rates, graduation rates, and discipline referrals.

**Evidence of Effectiveness:** 99 of 100 students (99%) completed the program successfully.

**Webb County Juvenile Probation Department**

**Total Funds FY 16:** $89,630

**Brief Description of Program:** Contracts with Southwest Key to provide the Family Keys Model (intensive home-based case management services) to youth between the ages of 11 and 13 who are truant, running away, experiencing behavioral problems at school, or experiencing conflict with family members.

APPENDIX B:
Delinquency and Dropout Prevention Practices:
Pursuing a Developmental Continuum of Services

The earlier prevention efforts can begin, the better, as many risk factors and predictors of dropout and delinquency begin before kindergarten. Resiliency develops over time, building upon protective factors, such as relationships established in early childhood, and evolving as a child grows into school age and adolescence.

Just as preventative measures like vaccines often need to be repeated as a child grows older to extend protection from illnesses, so too do youth often require “booster shots” to extend the protective buffers established earlier in their development and to protect against new risk factors that emerge as they grow older. An intervention that provided protections during elementary school may lose its impact during middle school, for example, when another intervention may be needed to address evolving developmental needs and risk factors. A continuum of effective interventions have been identified that range from prevention programs targeting early childhood through individualized interventions that prevent justice involved youth from recidivism. Common strategies among them include:

- **Prenatal**: Interventions that provide prenatal care to expectant mothers as well as prevent expectant mothers’ exposure to alcohol, drug use, smoking, and stress have the potential to prevent many subsequent problems for a child.

- **Early childhood**: Individual and family interventions in the preschool period, such as home visits, parent training, and quality education and childcare services, are used to improve life-course outcomes.

- **School age**: Once children become of school age, they are faced with peer pressure and school risk factors. Many prevention efforts at this next developmental stage are universal school or classroom interventions focused on encouraging positive behavior social and emotional skill building. Other efforts include targeted programs for at-risk or high-need students and their families, providing smaller classroom communities, family training courses, and afterschool enrichment activities.

- **Adolescence**: Adolescent prevention programs focus on bonding students with their school and community, and span across the middle and high school years. By enhancing school climate, belonging and academic achievement through activities like service learning, positive youth development, career development, mentoring, tutoring, and counseling, programs are designed to reduce risky behavior and keep students in school.

- **Delinquent youth**: Therapeutic models for delinquent youth have been found effective for reducing recidivism rates and strengthening relationships within families.

Dropout and Delinquency Prevention Resources

Several resources exist to assist the state, communities, and service providers in identifying and selecting programs and practices with demonstrated effectiveness in preventing dropout and delinquency. These include:

- **Effective Social and Emotional Learning Programs.** The CASEL Guide shares best-practice guidelines for district and school teams on how to select and implement SEL programs. [http://www.casel.org/guide](http://www.casel.org/guide)

- **The Center for Evidence-Based Practice: Young Children with Challenging Behavior** is funded by the U.S. Department of Education, Office of Special Education Programs to raise the awareness and implementation of positive, evidence-based practices and to build an enhanced and more accessible database to support those practices. [http://challengingbehavior.fmhi.usf.edu/](http://challengingbehavior.fmhi.usf.edu/)

- **CrimeSolutions.gov.** The National Institute of Justice provides a library on effective and promising delinquency prevention programs. [https://www.crimesolutions.gov/](https://www.crimesolutions.gov/)

- **Juvenile Justice Evidence-Based Practices.** This resource hub provides recent research on key issues, model policies, and reform trends relating to evidence-based practices. [http://jjie.org/hub/evidence-based-practices/](http://jjie.org/hub/evidence-based-practices/)

- **Blueprints for Healthy Youth Development**, a project of the Center for the Study and Prevention of Violence at the University of Colorado, serves as a resource for governments, foundations, businesses, and other organizations trying to make informed judgments about investments in evidence-based prevention and intervention programs that are effective in reducing antisocial behavior and promoting a healthy course of youth development. [http://www.colorado.edu/cspv/blueprints/](http://www.colorado.edu/cspv/blueprints/)

- **The Office of Juvenile Justice and Delinquency Prevention's Model Programs Guide (MPG)** is designed to assist practitioners and communities in implementing evidence-based prevention and intervention programs that cover the entire continuum of youth services from prevention through sanctions to reentry. [http://www.ojjdp.gov/mpg/](http://www.ojjdp.gov/mpg/)

- **SAMHSA's National Registry of Evidence-Based Programs and Practices (NREPP).** NREPP is an evidence-based repository and review system designed to provide the public with reliable information on mental health and substance abuse interventions. [http://nrepp.samhsa.gov/](http://nrepp.samhsa.gov/)

- **The National Child Traumatic Stress Network.** This organization provides information and resources on a variety of policy and program topics related to the impact of trauma on children, including the impact of trauma on learning. [http://www.nctsn.org/resources](http://www.nctsn.org/resources)
