

JCMS DATA MAPPING

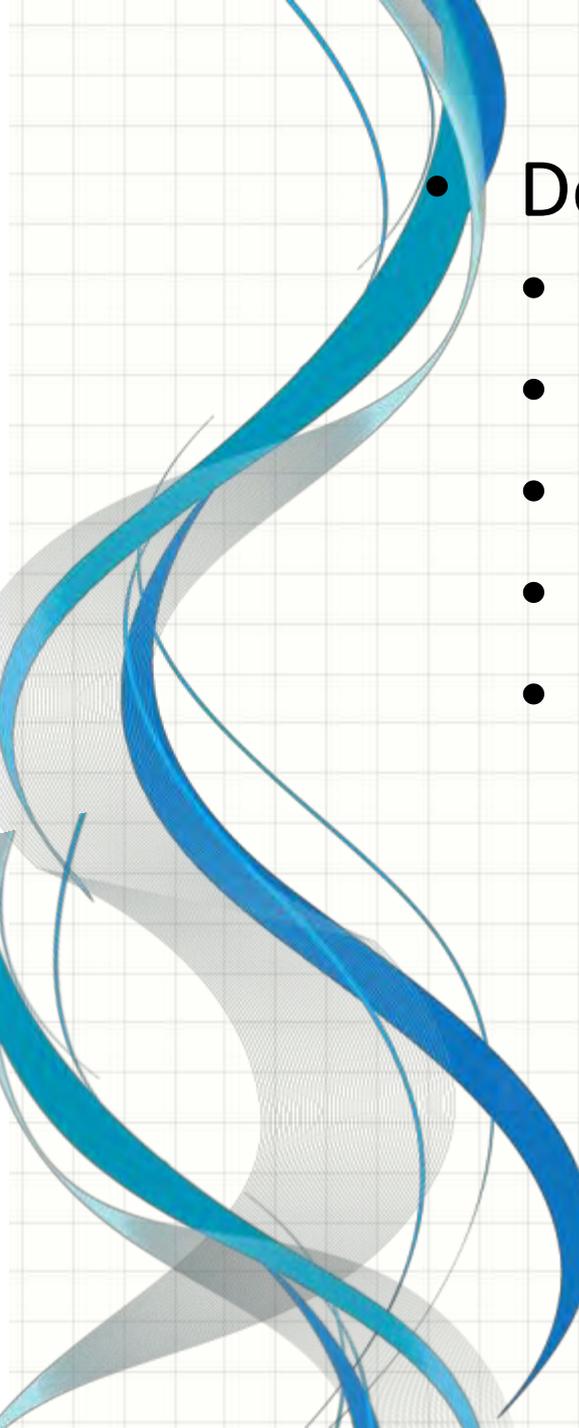

Brad Stafford
Texas Juvenile Probation Department
September 27, 2011

Initial Planning – Data Conversion

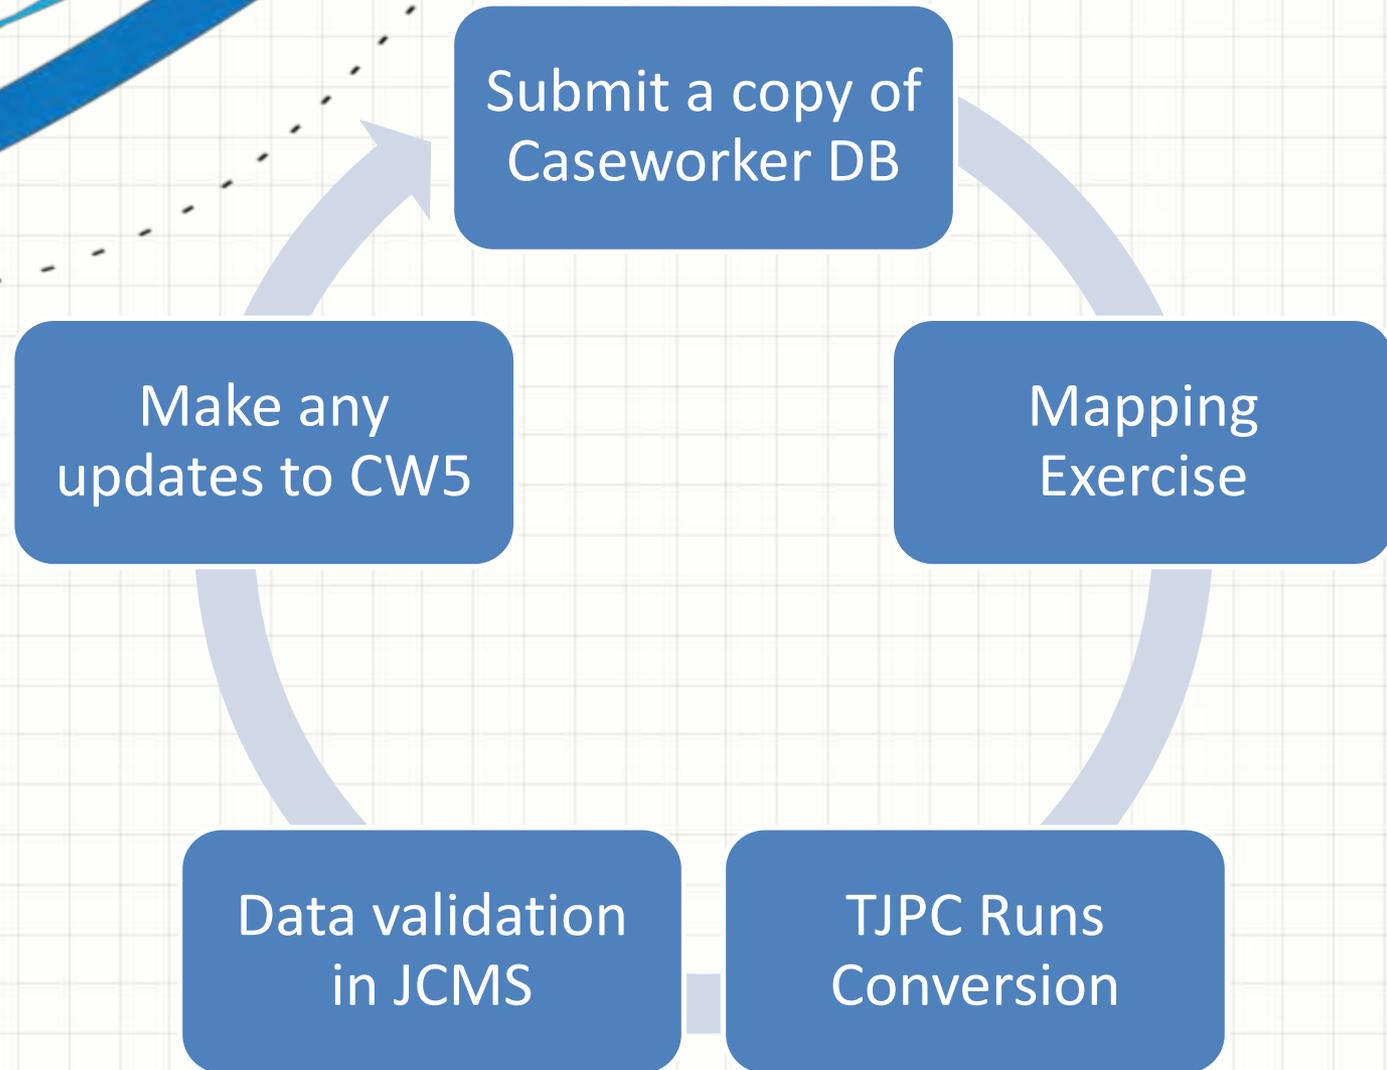

- Initial teleconference with county to plan start dates, training, dependencies and Go-Live dates
- Each county will have their own individual copy of Caseworker, JCMS and JCMSMapping databases
- Counties can FTP the latest copy of their Caseworker database to TJPC

- 
- Initial setup of county configurable data in JCMS
 - Agencies
 - Departments
 - Holidays
 - <https://jcmsmapping.jcms-tx.org/>
(You will not be able to access this website until a site to site VPN connection has been established with your department)

- 
- Defining users in JCMS
 - Caseworker users, active/inactive
 - Officers
 - Attorneys
 - Judges
 - Payments received or posted by

JCMS MAPPING ITERATIVE PROCESS

JCMS CROSSWALK MAPPING FORM

The purpose of this form is to allow you to see the old values in Caseworker and map them to the new values in JCMS. Values that are not mapped will be mapped to nulls in JCMS.

HairColor - Caldwell County

Caseworker Values	JCMS Crosswalk	Frequency
BLK - BLACK	1 - Black	1209
BRN - BROWN	3 - Brown	1031
		495
BLN - BLONDE	2 - Blonde/Strawberry	272
RED - RED - AUBURN	5 - Red/Auburn	53
BLD - BALD	8 - Bald	1
PUR - PURPLE	9 - Unknown	1
GRN - GREEN	9 - Unknown	0
GRY - GREY	4 - Gray	0
NON - BALD	8 - Bald	0
SIL - SILVER	4 - Gray	0
		0

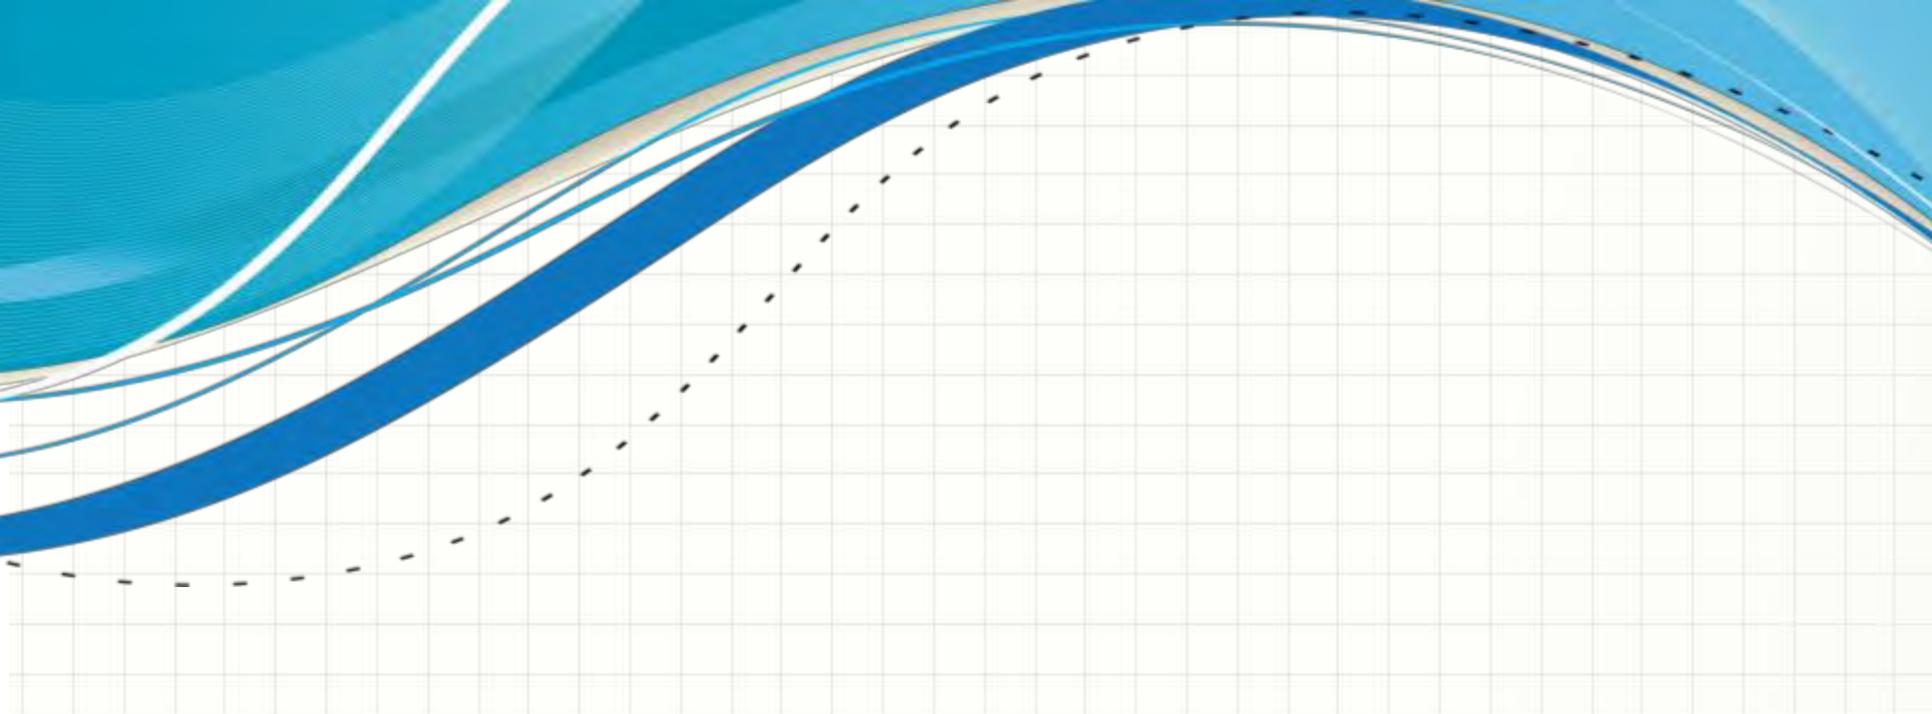

Once the iterative process is done and everyone agrees the Go-Live date is good we can start the Go-Live process:

- Freezing any updates to Caseworker
- Take one last backup of Caseworker
- Send the last backup to TJPC via FTP
- Make any last minute Mapping changes
- TJPC runs the final conversion from Caseworker to JCMS
- TJPC sends the JCMS database to CUC to process into production JCMS
- County and TJPC log in to production JCMS to verify results
- All future data entry will be in JCMS and not Caseworker
- County may consider keeping Caseworker for review purposes only

Summary

- Conversion includes historical data
 - Inactive users
 - Inactive new users
 - Inactive detention facilities
- Conversion environment is very secure
- Iterative process
