Select Counties:

County: 

[Remove County](#) Print Summary Report: Yes No

[Add Another County](#)

Select Counties: Defaults to HQ County

- **County** is based on County listed on Referral Screen
- **Add Another County** generates a separate report for each county listed – used by multicounty jurisdictions
- **Print Summary Report** combines the separate reports into one
- Leave County field blank to include referrals with any county, Agency or State as Originating Jurisdiction*

Statistical Report

Data Entry on Referral Screen

For all FM, PF and PA Referrals to be included on a County Statistical Report, the Originating Jurisdiction **must be** County and the County selected **must be** within your jurisdiction.

Statistical Report

County Selected

- Examples of incorrect Referral County information:
 - Juvenile commits an offense in a neighboring county, but lives in your county. Your department takes jurisdiction. You have a formal referral.
 - **DO NOT** enter the neighboring county as the referral county.
 - Your department receives an offense report from local law enforcement. You have a formal referral.
 - **DO NOT** enter Agency and State or Local Govt Agency as the Originating Jurisdiction/Agency.

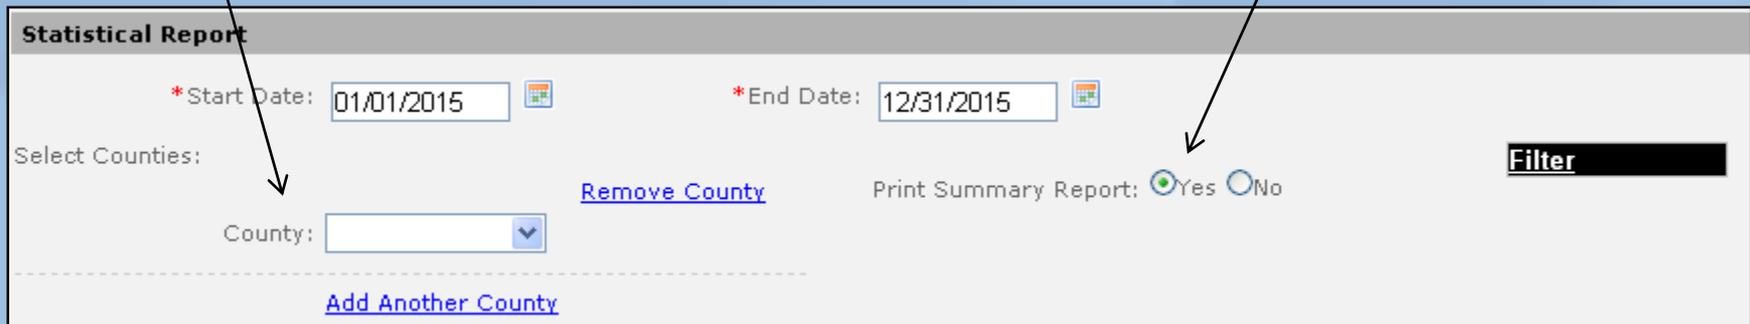

Statistical Report

Selecting Counties

2 options to fix these referrals:

- Update all FM, PF and PA referrals to Originating Jurisdiction = County and a County within your jurisdiction.*
- Leave the Referrals 'as is' and run the Statistical Report with the County field BLANK and select to Print Summary Report – Yes.

The screenshot shows a web interface for a 'Statistical Report'. At the top, there is a header 'Statistical Report'. Below it, there are two date fields: '*Start Date: 01/01/2015' and '*End Date: 12/31/2015', each with a calendar icon. Underneath, there is a 'Select Counties:' section with a 'County:' dropdown menu. To the right of the dropdown is a 'Remove County' link. Further right, there is a 'Print Summary Report:' section with radio buttons for 'Yes' (selected) and 'No'. A 'Filter' button is located on the far right. At the bottom of the section, there is an 'Add Another County' link. Two arrows point from the text above to the 'County:' dropdown and the 'Print Summary Report: Yes' radio button.

*Ad-Hoc instructions available

Statistical Report

Leave County Field Blank

A separate Statistical Report will be run for all Counties, Agencies and States recorded on the Referral Screen for the reporting period.

- Example: Dawson (058) is your HQ County
 - 20 PA, PF and FM Referrals – 058 is County #
 - 1 TR referral from Anderson County (001)
 - 1 TR referral from Brown County (025)
 - 5 FM Referrals with Agency/State or Local Govt
 - 1 IC referral with State/Tennessee
- A BLANK County will generate 5 Statistical Reports (20 pages)
- Adding **Print Summary Report** will combine all records into one Report and insure that all Counties, and Agencies and States are counted.

Criteria to be included on Table 3

- Referral Type = FM or PF
- Referral County = County selected for Report
- Offense Intake Indicator (IOI) = Primary

TR and IC referrals are not counted on Table 3 (Referrals) because the referral was counted in the home jurisdiction

Ad Hoc Reporting

Tips for creating Ad Hoc Templates

- To match the Statistical Report results, Referral County and Referral Type must be included as Criteria
- Ad Hoc Reports do not include Sealed Records
- A record must have a unique value to be included in the results.
 - Ex. When searching for Referrals, include a unique Referral identifier (Referral Number).

Ad Hoc Reporting

Tips for creating Ad Hoc Templates (continued)

- Create User Defined Fields to track information Ad Hoc cannot generate

Example: Ad Hoc cannot find the school a juvenile is attending while on supervision because:

- Two school screens can be open at the same time
- A juvenile can attend multiple schools during a supervision period

Solution: Create a User Defined Field on the Supervision Screen to track a juvenile's current school

Ad Hoc Reporting

Tips for creating Ad Hoc Templates (continued)

- Searching for Referrals or Dispositions based on Offense category (Statistical Column)
 - Include **TJJD STAT Category** as a Criteria
 - Columns are numbered 001 – 029
 - ‘Total’ columns are not assigned a column number
 - Stat Column numbers for each offense are included on the JCMS Offense Search tool on the TJJD website
