- Human Resource Code Sec. 223.001
- 85th Texas Legislative Session 2017, Rider 28
Sec. 51.01. PURPOSE AND INTERPRETATION.

This title shall be construed to effectuate the following public purposes:
(1) to provide for the protection of the public and public safety;
(2) consistent with the protection of the public and public safety:
   (A) to promote the concept of punishment for criminal acts;
   (B) to remove, where appropriate, the taint of criminality from children committing certain unlawful acts; and
   (C) to provide treatment, training, and rehabilitation that emphasizes the accountability and responsibility of both the parent and the child for the child's conduct;
(3) to provide for the care, the protection, and the wholesome moral, mental, and physical development of children coming within its provisions;
(4) to protect the welfare of the community and to control the commission of unlawful acts by children;
(5) to achieve the foregoing purposes in a family environment whenever possible, separating the child from the child's parents only when necessary for the child's welfare or in the interest of public safety and when a child is removed from the child's family, to give the child the care that should be provided by parents; and
(6) to provide a simple judicial procedure through which the provisions of this title are executed and enforced and in which the parties are assured a fair hearing and their constitutional and other legal rights recognized and enforced.

Sec. 203.017. REGIONALIZATION PLAN.

(d) The department shall ensure that each region has defined, appropriate, research-based programs for the target populations under the regionalization plan.

(e) The regionalization plan must:

(2) create a new division of the department responsible for administering the regionalization plan and monitoring program quality and accountability;

(f) The division created under Subsection (e)(2) shall:

(2) provide training on best practices for all local probation departments affected by the regionalization plan;

(3) assist in research-based program development;

(5) analyze department data to provide clear guidance to local probation departments on outcome measures; and

(6) report on performance of specific programs and placements to assist in implementing best practices and maximize the impact of state funds.

(g) A region is eligible for funding to support evidence-based, intensive in-home services only if the region meets the performance standards established by the department and adopted in contracts for placement and services.

(h) The department shall adopt rules to allow the local probation departments implementing the regionalization plan to access the data submitted by those departments in the state juvenile case management system for planning and research purposes.

Added by Acts 2015, 84th Leg., R.S., Ch. 962 (S.B. 1630), Sec. 4, eff. September 1, 2015.
Sec. 223.001. DETERMINATION OF AMOUNT OF STATE AID.

(b) The legislature may appropriate the amount of state aid necessary to supplement local funds to maintain and improve statewide juvenile services that comply with department standards and to initiate and support the regionalization plan under Section 203.017 so that savings are generated by decreases in the population of department facilities operated under Subtitle C.

(c) The department shall set aside a portion of the funds appropriated to the department for discretionary state aid to fund programs designed to address special needs or projects of local juvenile boards, including projects dedicated to specific target populations based on risk and needs, and with established recidivism reduction goals. The department shall develop discretionary grant funding protocols based on documented, data-driven, and research-based practices.

Redesignated and amended from Human Resources Code, Subchapter E, Chapter 141 by Acts 2011, 82nd Leg., R.S., Ch. 85 (S.B. 653), Sec. 1.004, eff. September 1, 2011.
Amended by: Acts 2015, 84th Leg., R.S., Ch. 962 (S.B. 1630), Sec. 6, eff. September 1, 2015.
Local Assistance. Funds appropriated above in Strategy F.1.1, Central Administration, shall be used to increase technical assistance on program design and evaluation for programs operated by juvenile probation departments. This shall include, but not be limited to:

a. providing in-depth consultative technical assistance on program design, implementation, and evaluation to local juvenile probation departments;
b. assisting juvenile probation departments in developing logic models for all programs;
c. developing recommended performance measures by program type;
d. facilitating partnerships with universities, community colleges, or larger probation departments to assist departments with statistical program evaluations where feasible;
e. following current research on juvenile justice program design, implementation, and evaluation; and,
f. disseminating best practices to juvenile probation departments.

Staff who perform these duties shall be included in the agency's research function and shall not be responsible for monitoring departments' compliance with standards.

Data Collection & Analysis
Challenges

Fragmented  Incomplete  Late

Missing  Incorrect
Suggested Strategies

• Periodic Data Checks
  ▫ Spot checks
  ▫ Informal data audits
  ▫ Ad Hoc reports
  ▫ Weekly Comprehensive Folder Edit runs

• Regular Training
  ▫ General data collection practices
  ▫ Comprehensive Data Audit Results
  ▫ Funding Source Audit Results

• Create instruction documents for repeat tasks
  ▫ Standard Operating Procedures

• Set guidelines for entering data
  ▫ Enter Dispositions within 48 hours of receiving information and Referrals within 24 hours
  ▫ Submit the extract by the 10th of each month
    • If the 10th is on a weekend, submit it on the weekday prior to the 10th
    • Set a calendar reminder the day before it is due

Data Collection & Quality

**Considerations**

- Where does the data come from?
- How reliable is the data?
  - Timely
  - Accurate
- How is the data used?

**Sources**

- Grant Application
- JCMS/CMS ad hoc reports
- Internal data collection efforts

Support Decision Making

**Now what?**

- Focus on target data point(s)
- Identify key personnel
- Facilitate guided conversations:

**To include:**

- Examine department practice, policy, and process
- Question what action should be taken
- Incorporate data as a mainstay
Decision Making Spectrum
Discretionary State Aid Grant

- Research supported programs

- Specific target populations based on:
  - Risk (Medium - High)
  - Needs (Moderate - High)

- Established recidivism reduction goals

Take Away

• Make data and data integrity a priority
  ▫ Minimize barriers
  ▫ Enhance data accessibility

• Bring data to the table

• Center conversations around data points
  ▫ Ask questions
  ▫ Make suggestions
