NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES***Reporting Entity***

The Texas Juvenile Justice Department (TJJD) is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies.

TJJD operates under the Texas Human Resources Code, Title 12. Its responsibilities are to support a community-based continuum of effective interventions, supports and services that reduce the need for commitment to state correctional facilities; rehabilitate youths committed to state correctional facilities through a program of care, treatment, education, and training; operate and administer the State's correctional facilities for youth; and to provide a statewide parole system.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Blended Component Units

No component units have been identified which should have been blended into an appropriate fund.

Fund Structure

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

Governmental Fund Types and Government-wide Adjustment Fund Types***General Fund***

The General Fund is the principal operating fund used to account for most of the state's general activities. It accounts for all financial resources except those accounted for in the other funds.

Capital Projects Fund

Capital Project funds are used to account for financial resources used for the acquisition, repair, renovation or construction of major capital facilities (other than those financed by proprietary or other similar trust funds).

Capital Asset Adjustment Fund Type

Capital Asset Adjustment fund type will be used to convert governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

Long-Term Liabilities Adjustment fund type will be used to convert governmental fund types' debt from modified accrual to full accrual.

Other Adjustments Fund Type

Other Adjustments fund type will be used to convert all other governmental fund types' activity from modified accrual to full accrual.

Fiduciary Fund Types

Private-Purpose Trust Funds

Private-Purpose Trust funds are used to account for all other trust arrangements whose principal and interest benefit individuals, private organizations, or other governments. Trusts include non-State funds.

Custodial Fund

The Texas Juvenile Justice Department reports its Student Trust Fund as a custodial fund. Custodial funds are used to account for resources that are not required to be reported in pension trust funds, investment funds or private-purpose trust funds. TJJD operates the Student Trust Fund in local bank accounts to provide youth with banking privileges.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual method, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified basis of accrual. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual method of accounting. This includes capital assets, accumulated depreciation, unpaid Employee Compensable leave, the unmatured debt service (principal and interest) on general long-term liabilities, long-term capital leases, and long-term claims and judgments. The activity will be recognized in these fund types.

Proprietary funds, pension trust funds, external investment trust funds and private-purpose trust funds are accounted for on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds principal ongoing operations. Operating expenses for the enterprise and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

Budget and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities, and Fund Balances/Net Assets**Assets**

- **Cash and Cash Equivalents**
Short-term highly liquid investments with an original maturity date of three months or less are considered cash equivalents.
- **Capital Assets**
Assets with an initial, individual cost of more than \$ 5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if any purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all “exhaustible” assets. “Inexhaustible” assets such as works of art and historical treasures are not depreciated. Road and highway infrastructure is reported on the modified basis. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary funds or trust funds are reported at cost or estimated historical cost, if actual historical cost is not available. Donated assets are reported at fair value on the acquisition date. Depreciation is charged to operations over the estimated useful life of each asset, using the straight-line method.

Liabilities

- **Accounts Payable**
Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.
- **Employees’ Compensable Leave Balances**
Employees’ Compensable Leave Balances represent the liability that becomes “due” upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net assets.

Fund Balances/Net Assets

The difference between fund assets and liabilities is “Net Assets” on the government-wide, proprietary and fiduciary fund statements, and the “Fund Balance” is the difference between fund assets and liabilities on the governmental fund statements.

- **Fund Balance Components**
Fund balances for governmental funds are classified as nonspendable, restricted, committed, assigned or unassigned in the fund financial statements.
- **Nonspendable fund balance** includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.
- **Restricted fund balance** includes those resources that have constraints placed on their use through external parties or by law through constitutional provisions.
- **Committed fund balance** can be used only for specific purposes pursuant to constraints imposed by a formal action of the Texas Legislature, the state’s highest level of decision making authority.
- **Assigned fund balance** includes amounts constrained by the state’s intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (1) the Texas Legislature or (2) a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
- **Unassigned fund balance** is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.
- **Invested in Capital Assets, Net of Related Debt**
Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

- Restricted Net Assets
Restricted net assets result when constraints placed on net assets are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Assets
Unrestricted net assets consist of net assets, which do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

Interfund Activities and Balances

TJJD has no interfund transactions or balances. However, TJJD has intrafund activity with other agencies. TJJD has amounts reported as “Due from Other Agencies” and “Due to Other Agencies” at year-end. Additionally, TJJD has transfers to and transfers from other agencies that are reported when incurred as “Transfer In” by the recipient agency and as “Transfer Out” by the disbursing agency. The composition of amounts due from other agencies and transfers to and transfer from other agencies is presented in Note 12.

COVID-19 Response

In response to the COVID-19 pandemic, Congress passed the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The act provides economic grants to offset some additional expenses and forgone revenue as a result response to COVID-19. The Texas Juvenile Justice Department reports these grants in the Consolidated Fund 0325 column of the TJJD financial statements.

NOTE 2: CAPITAL ASSETS

Revenue received from the sale of Surplus Property has been transferred to Unappropriated General Revenue in accordance with House Bill 7, Section 20.

NOTE 13: CONTINUANCE SUBJECT TO REVIEW

Senate Bill 653, 82nd Leg., amended the Human Resources Code to abolish the Texas Youth Commission (TYC) and the Texas Juvenile Probation Commission (TJPC) and to transfer the duties of those agencies to the Texas Juvenile Justice Board and the Texas Juvenile Justice Department, as created by the bill. The bill made the abolishment and transfer of duties effective December 1, 2011. The bill continued the Board and the Department until September 1, 2017, and specified that the goal of the Department is, among other priorities, to support a county-based continuum of effective interventions, supports, and services that reduce the need for commitment to state facilities. The bill established an advisory council on juvenile services to assist the Department in specified areas. Subsequently, Senate Bill 1727, 88th Leg., extended the Board and the Department until September 1, 2027.

NOTE 14: ADJUSTMENTS TO FUND BALANCE AND NET POSITION

The Texas Juvenile Justice Department had the following adjustment to fund balance and net position during FY 2024.

	General Fund
Net Assets, September 1, 2023	\$ 34,283,121
a) Restatement - Asset Adjusted	(269,845.51)
b) Restatement - Accumulated Depreciation Added	(19,703.54)
Net Assets, September 1, 2023, as Restated	\$ 33,993,572

Restatement of net assets was done due to equipment assets being overstated by the Texas Juvenile Justice Department in a prior year, but adjusted to the State Property Accounting System's assets in the current year. The net restatement amount is \$289,549. For more details on restatements, please see Note 2.

NOTE 15: CONTINGENCIES AND COMMITMENTS

The Texas Juvenile Justice Department has received several federal grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to a request for reimbursements to grantor agencies for expenditures disallowed under the terms of the grant. Based on prior experience, management believes such disallowances, if any, will be immaterial.

NOTE 16: SUBSEQUENT EVENTS

Not applicable.

NOTE 17: RISK MANAGEMENT

The Texas Juvenile Justice Department is exposed to a variety of civil claims resulting from the performance of its duties. It is the policy of the Department to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

The Texas Juvenile Justice Department assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently there is no purchase of commercial insurance, nor is the agency involved in any risk pools with other government entities.

The Juvenile Justice Department's liabilities are reported when it is both probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Liabilities are reevaluated periodically to consider current settlements, frequency of claims, past experience and economic factors. Losses did not exceed the funding arrangements during the past three years.

Changes in the balances of the Department's claims liabilities during fiscal 2023 and 2024 were as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
2023	\$ 0	\$ 11,241	\$ (11,241)	\$ 0
2024	\$ 0	\$ 70,221	\$ (70,221)	\$ 0
